### **About The Training Company & VerifiedCV**

While he was still working full time with a corporate, he has established "The Training Company" in April 2017 to achieve a personal vision of being able to support working individuals with resources which supports them to be professionals in the competitive corporate space and students across colleges with various trainings and help them capture job opportunities like nobody else.

Headquartered in Mumbai "The Training Company" aims to be the go-to firm for all training needs such as aptitude, verbal and soft skills across India with a full time strength of 55+ trainers & 15 on roll employees.

**VerifiedCV** is another brand started afresh this year in India. It is the next big thing, our core mission of VerifiedCV is simple; to make every résumé & CV perfect for the job. Our unique CV's & résumé comes with encryption of QR Code that can be scanned by any employer and verify with us. Besides, there are other various services that are catered to employer's & employees alike.

### **Proposal**

2019 & 2020 is a very exciting year for us at The Training Company since we are offering a commercially free session this time for selective colleges across country.

**Presenting "The TIGER Session" powered under our campaign called as TAKE THE WICKY CHALLENGE**

#### **What is the campaign TAKE THE WICKY CHALLENGE all about?**

In a sentence the challenge is to visit institutes we have never been to but somebody else has. Someone who was considered the best or a class apart, we are coming to deliver a session and change your thoughts about that best individual/ organisation and set the benchmark way to high for anyone else to reach.

The training Wicky will deliver shall be delivered in a way nobody has ever delivered and you won't find someone else to deliver it much better unless he visits you again. As mentioned in the first page the challenge is assessed with a unique tool about which we will discuss before the training starts. As an institute you can conduct feedback in your own format and share the results with us in an open forum.

#### **Why this training program?**

A student decides to join an institute basis two major factor; they are a) the faculty and b) a strong placement cell.

While the faculty does their best to impart the knowledge and make them capable to excel in their core areas, it is the training and placement cell that works conscientiously to create job opportunities and give platform for these excellent minds.

We all know how difficult it is to have a corporate partner in the campus for placement drive and as an institute or TNP Cell we understand you are not just responsible for getting corporate in the campus but ensure the students get selected and make it a successful drive.

Now while you are doing your best and performing hard for getting companies in the campus it can be a success only when it results in highest number of selection at the HR round and this is what counts. These results can only be achieved if you have an expert training partner and the content which has delivered across and proven to be working for others. Our training program has been designed not only to support trainees get job during campus drives but also transform them to be self sufficient of getting placed off campus.
