Description:

Our PDLC Management and DLITA Team had organized an event on Full Stack Web Development (Ruby on Rails).

Our event was started by Sanjana Khemka and Rupali Mishra on Google meet Platform at 9:00 am by welcoming Shilpi Agrawal. She had her Bachelor's Degree in Tech

In Computer Science from VIT University and had 5+ years of experience in Software Development. Apart from her project work. She likes to contribute her time towards exploring open-source projects and writing blogs.

After this she had started introducing Ruby on rails Software. How to install this software and setup of software, features, advantages, future scope. She also explained how to use this software and many other things. This event was very helpful to knowing more about web development. At covering this point the event had completed.

After this student of TYBSCIT and HOD of DLITA Ritika Thakur presents the vote of thanks to all. Everyone was asked to use their cameras for a group photo. Then ROSHAN JHA and members of DLITA played NATIONAL ANTHEM and the event ended.

Ritika:

Full stack Web development framework: Ruby on Rails

A very Good Morning and a warm welcome to one and all. I hope everyone is doing well. My name is Ritika Thakur, and I'm a student of TYBSc.IT. I am also a member of DLITA which as you all know stands for Dalmia Lions I.T. Association. Today's Webinar is about "Full Stack Web Development" and a framework on "Ruby on rails".

But before we begin, I would like to give a short introduction on full stack web development. Nowadays, developers want to upgrade their skills and make sure they are most sought-after in the industry. This brings full stack development in the limelight as it provides the bigger platform for developers. In a nutshell, full stack development is knowing about programming both client and server software.

Ritika:

Now, I would like to take the privilege of introducing our dynamic and versatile vice-principal SFC Prof. Subhashini Naikar. She is also the assistant professor at Degree College and is an author of many books. She has a vast teaching experience of 13 years and is also every student's personal favourite mentor. Subhashini ma'am it would be our honour to have you address us.

Now I would request my fellow colleague from SYBSc.IT Ms Aditi Parab to introduce our respected speaker for today's Webinar.

Aditi: Thank you so much Ritika. Our spokesperson for today's event is Ms. SHILPI AGARWAL.

She is working as "Software Engineer II" in Punch Tech India Pvt Ltd. She holds a Bachelor's degree in Tech in Computer Science from VIT

University and has 5+ years of experience in software development post that.

Apart from her work projects, she likes to contribute her time towards exploring open source projects and writing blogs about them. When not working with computer keys, she spends her time with brushes and colours, painting something beautiful on canvas. With all our warm hearts, we welcome you Shilpi ma'am to begin today's session.

Ritika:

Vote of Thanks: Good afternoon one and all. Thank you so much Shilpi ma'am for conducting this overwhelming session.This session would have now surely motivated all our young minds present here. Now it gives me a lot of honour and pride to thank our respected College Management for providing us with this glorious platform to perform and gain knowledge. I take the pride of thanking our respected Principal Dr. Kiran Mane, whose presence made the event even more auspicious than ever. I would also like to thank our respected Vice-Principal (SFC) Prof. Subhashini Naikar for being with us throughout the planning and execution of the event and helping us to make it more beautiful than ever. It gives me immense pleasure to thank our respected Professors and all the dignitaries for gracing the event with their presence. Also, nothing could make me prouder than to thank our beloved faculties from BSc.IT department, Prof. Rupali Mishra and Prof. Sanjana Khemka to help us at every stage of developing this event into a commendable one, nothing was possible without their support and guidance. Lastly, I would also like to thank all the members of our team D'LITA who worked day and night in the past week for making this event a real success. Thank you to all the attendees for attending this event and making every bit of hard work

done for today worth it. Now I request all the attendees in today's event to stand at their places to honour the National Anthem.
