Index

1. Introduction:

The curriculum component of 'community engagement projects'' is specifically incorporated as an integral part of NEP 2020 curriculum to acquaint the students about the socio-economic issues and challenges of the local and extended community so that the theoretical learnings can be supported by actual life experiences. India is a diverse country with heterogeneous communities and in this context the objective of the course is to encourage students to create and implement solutions to the real-life community level issues.

This course intends to assist the students to connect and interact with heterogeneous communities for identifying issues they face and try to provide probable solutions to community level problems. This approach is important in order to broaden opportunities of social responsibility, environmental sustainability, nation building and peace.

Community Engagement Projects work will provide students an opportunity to visit and observe situations in rural and urban contexts. The students are expected to observe and study actual field situations in socio economic contexts while doing their community engagement project. The course will create opportunities for students to understand the interconnection between theoretical knowledge and practical applications. Community Engagement Projects is expected to enhance their sensitivity to socio economic issues and improve their ability of problem solving as well as designing innovative solutions to the existing and emerging problems. Community Engagement Projects' component will also broaden the possibilities of deeper learning and enhancing research acumen of students.
