

## Project Tandulwadi

Tandulwadi a small tribal village in Thane district, Taluka Palghar, 90 kms away from Mumbai. Our students with the unstinted support of our management have brightened the lives of the villagers by installing solar street lights.

Our NSS volunteers offer a helping hand to the village school and the surrounding village. Our NSS unit is a blend of students from different economic backgrounds. Through NSS we sensitize our urban youth towards rural grass root problems. They strive to create awareness in the village on a variety of social issues. In an attempt to empower the girl child of this village we had donated 15 bicycles to girl students. Regular Health and Eye check-up camps are organized.
