"No one has ever become poor by giving." The true Art in Giving is to give from the heart without any expectation of a return. True giving comes from the same place inside you as your deepest happiness. They are inexplicably intertwined. A gift is something that is enjoyed twice. First by the giver who revels in the pleasure of giving something special and then also enjoyed by the person who receives the gift. A very special form of giving takes the form of small, personal acts of kindness. Very often it is not money or belongings that people need, it's the things that can't be seen, such as an advice, some reassurance, a kind word, a compliment or even a smile.

Thus, the theme of year 2019 - 20 has been "The Art of Giving". The activities of various departments and associations ensured that they had something to give to someone or the other by conducting various activities, events, competitions etc. Some were the givers, givers of knowledge, happiness, presents and much more while some were the receivers. Every department put in efforts to make sure to incorporate and inculcate the value of giving without any expectations, not necessarily materialistically but in other ways as well.

The act of giving doesn't have to be limited to an exchange of presents at festival time or Birthdays. You can treat every person you come in contact with as someone who you can give a gift to. You may be a bit skeptical, wondering what exactly you have to give. Everybody has something of value for another person. It could be a kind word, a simple smile, some appreciation, the sharing of some special knowledge, even a helping hand or a bit of support during a difficult emotional time. Remember that the happiest people are not those getting more, but those giving more. Since you get more joy out of giving joy to others, you should put a good deal of thought into the happiness that you are able to give.

One of life's most basic laws is "every single act of love, kindness and generosity will multiply and return to you many times over". When you give without any desire of getting something back, your returns will be limitless. To give something from the heart is an action which will fill your life with joy. The intention behind your giving is the most essential thing. The intention should always be to create happiness for both the giver and the receiver and when the intentions are the right, it creates a pattern of happiness, joy, trust and love in your life beyond what you could ever expect.

We all have something to give. We all have something of value for another person. With most things in this world, there is only a limited amount of what you can give away.

Thankfully, generosity and kindness are not associated with these same material limitations and this makes the art of giving something wonderful.

Chairman's Message

Being challenged in life is inevitable, being defeated is optional.” – Roger Crawford

In my long years of service as an entrepreneur or a social leader, never had I come across with what all of us are facing now. The covid Pandemic is here and is disrupting everything we know of conduct of business and work. Or that's what I thought during the first phase of lockdown that started this year by the end of March. However, we have all learnt with great difficulty that it's going to stay for a while longer. The inevitable lockdown came as a jolt without a drill to coach the citizens of India which is very unfortunate. But when the question is life vs business, the natural choice is always life.

However, after the initial shock and awe, the University had set certain basic guidelines; it served as a direction for our academic leaders at Prahladrai Dalmia Lions College of Commerce & Economics. I was amused by the impressive turn-around of our faculty team who proactively picked up new techniques and internet enabled online classes for our dear students who were still not clear of the instructions from the University. This reminds and assures me that the best preparation against a disaster is the courage and confidence to rise from ashes.

Fortunately for India, we had acted faster with necessary crowd control protocols and implementing Covid Appropriate Behaviour. This ensured that we managed to contain the magnitude of the disaster which otherwise could have decimated a populous country like ours.

We would be faced with a change of guard, as our Principal Dr. N.N Pandey would be superannuating. Dr Pandey, a veteran academic from Mumbai University, is with us for more than a decade. This is indeed a major transition but our Vice Principals have taken upon themselves the challenge of empowering the incoming Principal under the supervision of our Governing Council. I am happy that innovative plans are being developed by our Placement Cell to ensure that once our students are able to complete the exams, they are provided with opportunities to interact with prospective employers despite the global disaster. We are working closely with the University of Mumbai to address the queries and conduct the academic tasks. Since it's a dynamic situation, we are working as per individual guidelines rather than an annual plan.

Amidst all this fanfare, we lost Dr. Bharat Pandya, the Vice Principal of our Junior College, a veteran who had been serving our institution well over 2 decades. This has been a personal loss to me, and the Governing Council conveys our sincerest condolences to his grieving family and friends.

Despite all the challenges and uncertainty looming around, our students, team of faculties and staff has ensured our Institutions continuity, including innovative ways to conduct various events and co-curricular activities. This is indeed a message to all of us that 'show must go on'. I wish to place a special note of appreciation to the Disaster Management Cell for coordinating staff, students and volunteers to lend a strong hand in the relief works at the flood site of Ratnagiri, Maharashtra in 2019.

Our management leaders from the Governing Council and academic leaders from the institution are chalking out various ways to decrease the impact of the pandemic on our college and the future of our students. We are not sure of many things, including the academic calendar, examination schedules, examination methods, whether there would be any examination this year to enumerate a few of the challenges we are facing. But we are sure of one thing - that 'our commitment to the betterment of students' future remains undeterred.

LION Dr. SHARAD S. RUIA
Chairman, Governing Council,
Prahladrai Dalmia Lions College of
Commerce & Economics

Secretary's message

Report card of the college is excellent. Due to Covid and lockdown, classes were conducted on virtual platforms. We feel sorry for those students who could not enjoy college and canteen life, nor showcase their talents in various fields. During this period of crisis, under able leadership of Principal Dr. N.N. Pandey and equally supported by teaching and administrative staff, the college has performed very well. In the past, I have seen that we have produced thousands of Corporate Leaders, Public leaders, Chartered Accountants and Media Persons. They have travelled from Classroom to Boardroom of Public Limited Company. We make education a purposeful, meaningful and enjoyable experience.

We give due weightage and importance to the grievances of students and solve the same by not taking it lightly and casually. In spite of the economic meltdown due to Corona lockdown, we are continuously increasing basic amenities and other facilities for students and staff members.

In the academic year 2019-2020 we lost our devoted and dedicated Senior Life Trustee Lion Balkrishnaji Lakhotia, a Visionary, a Thinker and a Stalwart pillar of the college. He will be profoundly missed by all of us. May his soul rest in peace, we pay our heartfelt condolences.

Let us all march ahead for a better tomorrow.

Together we can and always will make a difference.

Be positive in life and wish negative Corona tests for all.

We extend our wholehearted support to economically backward students.

LION KANAHAIYALAL G. SARAF
Hon. Secretary, Governing Council,
Prahladrai Dalmia Lions College of
Commerce & Economics

Principal's Message

It is a matter of great pride to have been the Principal of this institution for more than a decade, an institution that aims to mould the character of each youngster into an – “Icon of tomorrow”. It was because of the great enthusiasm, diligence and perseverance of all my teaching and non teaching staff that we took this college of ours to greater heights in the last decade. We have achieved great milestones in few years: from a qualitative increase in the number of courses offered to students, to the increase in academic growth of students and research output of teachers, I was fortunate to motivate them all in a variety of fields.

“If we teach today’s students as we taught yesterday’s, we rob them of tomorrow” says the great educationist John Dewey. Thus, keeping in mind the changing times, the changing technologies and the mindsets of the present youth; we at our institution have always aimed to provide our students with the best teaching-learning atmosphere. Our faculty armed with their skill and prowess in their respective academic field is ever committed towards awakening the creativity of our youth – be it in the field of academics, sports or the cultural. The plethora of curricular and extra-curricular activities that we provide our students every year are in a continuous process of qualitative improvement, providing our young minds with opportunities that “widen their horizons and inflame their intellect”.

The number of Best Practices, the vast array of intercollegiate and intra-collegiate activities – the Dalmia Lions Utsav, Dalmia Lions Khel Mahotsav, the Entrepreneurial League, the research conferences organized ‘for students by the students’, the various social outreach programmes have all raised the bar.

We have always believed in creating a collaborative teaching-learning atmosphere and always strive to mould our youth into confident, creative and socially sensitive individuals who are ever ready to respond to social causes and issues. The constant engagement of our students in community service, not only through NSS, DLLE and NCC but also through the Projects undertaken at the villages affected by the Tivari Dam and the reaching out to students in the Palghar district with books and pen is highly commendable.

I am thankful to our management, teachers and administrative staff that have worked together in creating an academic environment that nurtures the dreams and potential of every student helping him/her to blossom into an empowered and sensitive human being.

And true to the theme, the aim of this year's DLU is to celebrate such individuals in our lives by highlighting their efforts.

The Dalmia lions Utsav was hosted on the 17th and 18th of December, 2019 and 107 colleges all over Mumbai participated in this intercollegiate cultural festival. We were privileged to commending them and showing our gratitude towards them for making our lives easier. Have more than 3000 participants who participated in a total of 37 events in the span of two days. The most hyped and rejoiced event was the War of DJ for which more than 6000 students came to the college campus to enjoy the competition. The team of Dalmia lions Utsav started working 3 months before the event was to be done with complete dedication and live up towards the college and the Brand Dalmia Lions Utsav.

The stalls were named and decorated by stall owners according to the respective sections. They marketed their products by calling out the specialty of their product. Some dressed in tradition attire to attract the customers. EPL this year experienced a very tough competition as the number of participants were high. The college foyer felt more like a flea market filled with the joy and echo of the participants.

The students, faculties and people from Sunder Nagar were invited to shop, visit and encourage the upcoming entrepreneurs. Every one enjoyed and shopped for themselves and for their loved ones. The entire day was full of enjoyment and learning. The post event evaluation forms were circulated to be filled by the participants and the committee members. The event was captured by photographers through-out the day to give a glimpse of the successful event. The decorum and discipline were well maintained by the team of BMS committee.

And this way, the 4th edition of EPL came to a closure with more promises to raise the bar higher next year, by giving more opportunities to students to showcase their entrepreneurial skills and sharpen their skills. We cannot end this summary without mentioning the commendable effort and meticulous planning of BMS Team of students and faculties.

We can end on a note that "There was a soul to the event and it was vibrant, contagious and exuberant."

DEPARTMENT OF LIFELONG LEARNING AND EXTENSION (DLLE)

“A Learning Curve is essential to growth.” – Tammy Bjelland

The Department of Lifelong Learning & Extension (DLLE) has been recognized as a Statutory Department of the University of Mumbai since 1994. It aims to promote a sustained rapport between the University & the Community. The Extension dimension of the Department facilitates the sensitization of the students to the socio-cultural realities. The department offers extension work projects encompassing social issues to the students.

The Department of Life Long Learning & Extension (DLLE) of our college started the enrollment of students from the month of June and it enrolled a total of 201 students for the academic year 2019-2020. The Department is spearheaded by Dr. Shami Nimgulkar- Kamble (Economics Department) & three most enthusiastic teachers Dr. Mahendra Pachadkar (Law Department), Mr. Sandeep Gupta (Mathematics & Statistics Department) and Ms. Priyanka Radhakrishnan (Self-Financing Courses). To ensure efficiency in the execution of the extension work & to assist the teachers in the work involved, the extension activity of the Student Managers was felt pivotal. The pillars of the department (Student Managers) were: Mr. Omkar Mahadik, Mr. Adwait Khatu, Ms. Mehek Panchal, Mr. Rhutik Kokate, Ms. Vaibhavi Patel, Mr. Devesh Pednekar, Mr. Ronak Jain and Mr. Subham Jadhav.

The Department this year enrolled students under 2 extension work projects:

1. “Survey of Women’s Status (SWS)” and
2. “Population Education Club (PEC)”.

The purpose of SWS project is to make the students sensitized about the problems faced by women & to generate a sense of realization among students to be a contributory factor towards their empowerment. Our students conducted a survey of women in the age group of 20-60 years. They interviewed 25 to 50 women each in the areas chosen under the project. These projects thus provide a forum for exchange of ideas, innovations, amassing knowledge & provides a chance to increase the representative voice of those traditionally underserved & ignored in society.

Rapid growth of population in India has become a matter of concern for one and all. Growing population is not an issue of numbers alone. But it is an issue which is intimately related and has implications for socioeconomic development, environment and quality of life of our citizens. In order to slow down population growth and accelerate the process of improving the quality of life of our citizens, multi-pronged initiatives are being taken. Integration of Population Education in all sectors of Education (i.e. formal and non-formal) is one such initiative. The purpose of this initiative is to educate the present generation about population, development and environment for a better quality of life of their own and at their future generations.

The Extension work teachers attended:

1. The First Term Training Programme at B.L. Amlani College of Commerce and Economics, Vile Parle on 2nd July 2019.
2. The Second Term Training Programme at Chandrabhan Sharma College of Arts, Science and Commerce, Powai on 14th December 2019.

Our Field Coordinator Dr. Sulbha Raorane addressed & guided our extension students in both the terms. Her valuable guidance helped the students in completing their project work.

As a part of the project work, students have also written essays of about 1500 words each on an array of social issues.

List of activities created in the A.Y.2019-2020 are:

- **Rally to create awareness about Blood donation:** On 17th September, 2019 a rally was organized to create awareness among masses about the importance of blood donation. The rally started from our college and covered the entire Sunder Nagar vicinity. It concluded at Chincholi Bunder Road.

- **Blood Donation:** It is one of the best things that one can do for others. Donating blood can help someone in getting a new life. The Department organized Blood Donation Camp on 19th September 2019.

- **Flood Relief Camp:** As a part of the Institutional Social Responsibility, we took up the project of providing relief to the people affected by flood this year. This endeavor of ours is also in line with the theme of our institution which is the “Art of Giving.” An intensive survey of the flood affected areas was conducted.

Here is a brief overview of the findings :

1. **Tiware:** Tiware Dam was built 14 years ago with a capacity of 20 lakh cubic meters. Heavy rainfall led to a breach in the Tiware Dam in Maharashtra's Ratnagiri district at around 9.30 pm on July 2, 2019 and seven down-stream villages were flooded. Search and rescue operations were launched by the NDRF and State police. Approximately 45 families lost their livelihood including the loss of livestock, the destruction of farmlands, houses, bridges, schools and health facilities, as well as damage to the water supply, irrigation systems. Thus they were severely affected because of the timing and scale of the floods.
2. **Patharpunj:** Patharpunj in Patan tehsil of Satara district emerged as the wettest place in India during this monsoon as of date, with higher rainfall than Cherrapunji in Meghalaya. Between June 1 and August 24, Patharpunj received 7,359mm of rainfall as against 5,938.4mm rainfall in Cherrapunji (Hindustan Times, Aug 25, 2019). There are 200 families who lost all their cultivation of rice and other food items because of the heavy rains. They live in the forest areas. Due to the absence of all-weather roads, they travel long distances by foot only once in a week to buy their grocery. There are Kutcharoads, but due to heavy rains, they are washed away.

On realizing the plight of these tormented souls, we decided to conduct distributional and relief activities in Tiware (Chiplun Taluka) and Patharpunj (Satara District) – Maley, Kolney, Kasheli, Vajegaon villages. We succeeded in collecting relief material to assist 250 affected families. Management Members, students, ex-students, neighboring communities extended their helping hand and we could collect essential commodities as well as durable commodities. Our team led by two teachers and our Student Manager Mr. Omkar Mahadik along with 9 other students personally visited these places on 20th and 21st September, 2019 for overseeing and participating in the relief operation. The terrain was difficult but sheer determination and perseverance of the entire team made this camp a big success.

- **MUSKAAN-**The Department initiated “MUSKAAN”- a drive to spread smiles. This drive was conducted throughout the year. As a part of this drive, 13 groups of DLLE students visited various orphanages in Goregaon, Malad, Borivali and Bhayander. The students interacted with the children. They organized several competitions for them. They played games like cricket and basket - ball with them. They also taught them poems and made them recite after them. Extension students served them home-made food. Students donated stationary, drawing books, colours to them. The extension students also discussed environmental issues with them and explained to them how they can be contributory factors in reducing the environmental hazards. Some students also spent time with families who were not blessed with an abode and also served them food.

Extension students also visited old age homes and entered into lively discussions with them to bring a smile on their worried faces.

- **Seminar on Physical Fitness:** Physical and mental fitness plays an important role in relieving stress, anxiety, depression and anger. The Department organized a Seminar on “Physical and Mental Fitness” on 22nd November, 2019. The resource person invited for this purpose was – Mr. Sunder Chand Thakur, a marathoner, motivational speaker and resident editor of NavBharat Times.
- **College Level Activities:** Two College level activities were conducted – Poster Making and Essay Writing on 4th December 2019 and 9th January 2020 respectively. Students were asked to prepare posters and write essays on various socio-economic issues. The Department awarded students with cash prizes and certificates for the Best Posters and Best Essays.
- **Talk on “Entrepreneurial Development through Innovative ideas”:** Considering the importance of self-employment in the current situation and to harness the entrepreneurial skills of the extension students, a talk on “Entrepreneurial Development through Innovative ideas” was organized. Mr. Willibrord George, Principal and CEO of St. Willibrords School, Education Entrepreneur and Leadership Trainer was invited. This talk was organized on 17th January, 2020.

Fine Arts Association

"Art is the most intense mode of individualism that the world has known."

– Oscar Wilde

The Fine arts association caters to the creative needs required in development of students. Along with curricular and co-curricular activities, extra-curricular activities too are important in shaping students. Various fine arts not only provide students with a hobby but also helps them be themselves as an art is the best way to express oneself. It averts the chances of depression among youth and gives them a break from their stressful lives.

- To begin this fantastic year we started with "DEXTERITY 2K19" An Intra Collegiate Fine Arts

Competition for students across all stream and classes starting from 1st August to 13th August 2019.

It included mainly the non-performing forms of fine arts as per following schedule:

Date	Event Name
1 st August 2019	Glass Painting
2 nd August 2019	Plant Pot Decoration
3 rd August 2019	Wind Chime, Wall hanging, Dream catcher
5 th August 2019	Scrapbook
6 th August 2019	Nail art
7 th August 2019	Kurti Painting
8 th August 2019	Bottle Art
9 th August 2019	Selfie Prop, Mobile Pouch
13 th August 2019	Rangoli

Response received for all competitions has been overwhelming. Students were given theme and participants were given a brief introduction about all events a few days prior to competition. Requirements were to be brought by participants as per their imagination, need and creative requirement.

"An artist is not paid for his labour but for his vision." – James Whistler

Keeping this in mind, we decided to give our creative youth a chance to earn rewards for their creative pieces made in each competition. All participants were given an opportunity to sell their artistic creations at AAZAADI Fine Arts Exhibition on 15th August, 2019.

Fine Arts Exhibition of Degree and Junior College was inaugurated by Lion CA Vijyatta Jaiswal and Judges for Fine Arts Events along with our beloved Principal Dr.N.N.Pandey, Vice Principal of Degree College Prof. Madhavi Nigoskar and Vice Principal of Self-Financed Courses & AAZAADI Convener Prof Subhashini Naikar. Our esteemed judges were Lion Sheetal Mehra & Mrs. Payal Agarwal for Junior College and Lion Varsha Jain & Mrs. Misha Sanghai for Degree College Section. Students were thrilled by this experience.

A picture is worth a thousand words. This competition was mainly organised to express via posters so that the message reaches wide and far irrespective of literacy status. It was conducted on 26th August, 2020 as an initiative of Rajani Foundation in collaboration with MCGM and PDLC Aastha Cell.

Fine arts is not only about the creativity which can be brought to paper or things, but also to self. Aesthetics is an equally important part of our life. So, a Guest session on "How to create the perfect makeup look for navratri" was organised by Women Development Cell in association with Fine Arts Association. The speaker was a celebrity makeup artist Ms. Neha Kataria on 17th September, 2020. She took a volunteer and explained with a demo the process of make-up, the products to be used, their maintenance and the care to be taken with removal of make-up.

HEALTH and Counselling CELL

"You can't enjoy your wealth, if you're not in good health."
- Anonymous

The Health and Counselling Cell of the college supports the students to provide comprehensive guidance programs and services in resolving their emotional conflicts and enables them to equip with necessary knowledge, attitude and skills to lead happy and successful living.

The theme of the year 2019-20 being 'Joy of Giving', the Health and counselling cell organized a number of activities.

Clear Face Confidence: As part of wellness initiative and to educate the students about, the benefits of wellness and good skin health, "Clear Face Confidence" Kiosk activity was organised in association with "HIMALAYA" on 30th August, 2019. Though our institute believes that in professional world looks are not everything, but considering today's fast and competitive world, first impression is equally important. We believe in overall development of students. Apart from the curriculum the overall presentation, self-confidence, team sprits and leadership qualities are also important.

Psychological Counselling sessions: The health and counselling cell in association with Dr. Trupati Barccha owner of Kurves and Smiles Clinic, (B.H.M.S, D.N.Y.S. Certified in Psychological Counselling) conducted Psychological counselling session for college students. The session started from December 2019 to March 2020 and it was conducted once a week i.e. every Thursday. The counselling session aims at helping students reach their highest academic and personal potential. The cell offered free counselling to students on individual basis.

Seminar on Students Bright Career: On 12th March, 2020 a webinar on 'Students Bright Career' was conducted by Dr. Trupati Barchha, (B.H.M.S, D.N.Y.S. Certified in Psychological Counselling). The seminar focused to narrow down the gap between the right career and student's potential. It tried to promote higher productivity in students so that they can fulfil their professional and academic goals.

“One of the most VALUABLE things we can do to HEAL one another is to listen to each other’s Stories.” - Rebecca Falls

In the changing scenario, counselling cell plays a vital role in an educational institution. Education stands for an overall development of a student and thus counselling cell, a facilitator.

Counselling is an integral part of the total educational enterprise. The Mission of the Counselling Cell at our college is to facilitate wise choices and decisions and to promote adjustment and mental health. The psychological purpose of counseling is to facilitate development. Once a week full time Counsellors are available to render service to those who need help.

Teachers in charge of counselling cell sat together and shared their thoughts about the problems faced by students and they came to a conclusion that we need to promote the well-being of our students and empower them with life skills needed to face the challenges of this dynamic world. Each student is precious. No valuable life should be lost because of our ignorance. Let us observe and be more vigilant in dealing students’ problems. Let us motivate the students to identify their inner strength which will enable them for their holistic development.

The main purposes of counselling are to promote this kind of awareness, to facilitate this kind of choice.

OBJECTIVES:

- To identify the problem areas or difficulties of individuals, their potentialities and limitations
- To help students develop their potentialities through a greater self-understanding to enable them to take full advantage of the environmental resources
- To help mitigate suffering, reach appropriate solutions, take responsible decisions, and enable students to become self-actualized individuals.

FUNCTIONS:

- Identify students who require help
- Conduct counselling sessions
- Refer students to experts for guidance
- Organize lectures/seminars/workshops by experts and professionals
- Administer, score, and interpret psychological tests.

Counselling cell acts as a facilitator for the overall development of the students. The Cell works in association with the various department & class teachers (Mentors) of the college. It is the duty of each class teacher (mentor) to identify the needy students of their class.

Class wise interactive sessions were arranged for all batches. Group sessions are conducted on the topics like need for counseling, personality development, mental health, self-confidence, unhealthy relationship, separated parents, conflicts at home or with peers, exam stress...etc and stress management. Apart from this identified students are given individual counselling also. This academic year, the counseling cell has conducted group and individual sessions.

Students from various departments benefitted from the individual counseling sessions. Special attention is given to the failure of students in the Semester exams. Review sessions are also conducted for necessary cases. In certain situations, the parents of the students are also made part of the counseling session.

The main focus of Counselling Cell during the even semester was on the problems faced by the students during examinations like fear, lack of concentration, time management and failure. We tried to identify such students and arranged special counselling for them.

Mentors arranged the sessions to identify the issues and problems faced by the students and to prepare the plan of action accordingly. Thereafter individual sessions were arranged for the needy students and follow up sessions were done regularly. More than 15 students were given personal counselling and guidance by the counselling in charge.

Disaster Management Cell

While India always welcomes the monsoon season for bringing respite from the summer heat and replenishing parched reservoirs, in 2019, it had wreaked havoc in parts of western Maharashtra, where over 80 people lost their lives and almost lakhs got displaced after unprecedented rains. Heavy showers pounded several districts in western Maharashtra, including Sangli, Kolhapur, Pune, Satara and some parts of Konkan, causing flooding and damaging crops in the months of August and September 2019.

As several villages got marooned, the National Disaster Response Force (NDRF) and army had to be pressed into action to rescue people stranded there. In response to the need of the hour, our college decided to undertake flood relief material distribution operation on a mega scale. A primary survey was conducted by Prof. Sachin Bansode, who went personally to the flood affected areas of Satara and Konkan. As per his findings, it was realised that, lot of relief materials provided by government and NGOs had already reached the villages at the base but no government agencies or NGOs were able to reach the villages situated at the top of the hills.

Primary research conducted by Prof. Bansode made him realised that the villages on the top have lost all their cultivation and agricultural produce owing to heavy rains and are in dire need of some immediate help. Accordingly, it was decided that our prime motto for flood relief operation will be Reaching the Unreached. We wanted to be the first to help these villagers. Six villages namely Male, Kolne, Kasheli, Vajegaon and Patharpunj, Taluka: Patan, District: Satara and Tiware, Tal: Chiplun, Dist: Ratnagiri were identified and finalized for undertaking distribution of relief materials. Patharpunj village received a total rainfall approx. 9,000 mm in the year 2019, highest rainfall not only in India but in the entire world. A call was made to all teachers, Ex Students, students and neighbouring community for generous donations in cash as well as kind. Favourable response from Management Members, all the teachers of Degree college, Self-Financed Courses, Junior College as well as students, ex-students and neighbouring community meant that we were able to collect sizeable amount of relief material within a short period of time. On 20th September, afternoon Prof. Sachin Bansode and Sattappa Kamble along with the truck full of collected relief material left for Chiplun.

On 21st September, 2019 morning they were joined by Prof. Rajesh Ruke and ten students representing DLLE, NSS, Students' Council, NCC, Equal Opportunity Cell, Sustainable lifestyle @ agriculture project at Chiplun. On 21st September, 2019 the relief operation was undertaken from morning starting from Tiware in Chiplun, and then Kolne, Male, Patharpunj, Vajegaon and finally kasheli at Satara.

The entire operation was planned and executed with perfection in one single day. Some of the places were located at the top of the Sahayadri ranges deep into dense forest where due to landslides and heavy rainfall proper approach roads were missing. It took our team around three hours to cross a distance of merely 15 kilometres from our base camp to reach villages like Kolne and Patharpunj. It was once in the lifetime experience for the entire team. We are glad that the entire operation was successful with only minor hitches and we as a team are very proud that we could travel all together 800 kilometres [from Mumbai to Tiware (Chipun) to Kolne, Patharpunj, Male, Kasheli, Karad (Satara) and back] to make it happen and did it to the best of our ability. The smile on the faces of the affected villagers made our entire efforts worthwhile. The satisfactions which we all earned will be difficult to put it across in words appropriately. It could be only experienced and felt and we are glad that our students could take this surreal, pious first-hand experience of helping those in need.

Total Material Collected:

Total relief material collected was worth Rs. 4,08,000 including cash Rs.74,000 donated by all teachers and Administrative staff of Degree College, Junior College and Self-Financed Courses as well as donors from community. Material Collected included the following: Rice, wheat, Sugar, Refined Oil, pulses, Pressure Cookers, Blankets, Mosquito nets, Towels, bed Sheets, Sanitary Pads, Soaps, Biscuits, Medicines etc.

Following are the major contributors without whom distribution of flood relief material operation would not have been successful.

Jean Say, a French Economist who first coined the word Entrepreneur in 1800's said "The entrepreneur shifts economic resources out of an area of lower and into an area of higher productivity & greater yield."

Entrepreneurship is the special collection of skills possessed by an entrepreneur. They include propensity to take risk & desire to create wealth. Entrepreneurship forms the backbone of the nation's economy & in order to create strong entrepreneurship ecosystem, our nation is working on igniting the ideology of starting own venture amongst India's youth.

As per the United Nation's report India has the world's largest youth population. By 2020, India is set to become the world's youngest country with 64% of its population in the working age group. In the order to develop this demographic boom the youth of today needs to be encouraged in creating jobs rather than getting one. Therefore, to assist the youth to be self-employed & create employment opportunities, the college has come forward to provide support in every possible manner in its small way.

SUSTAINABLE LIFESTYLE AT AGRICULTURE REPORT

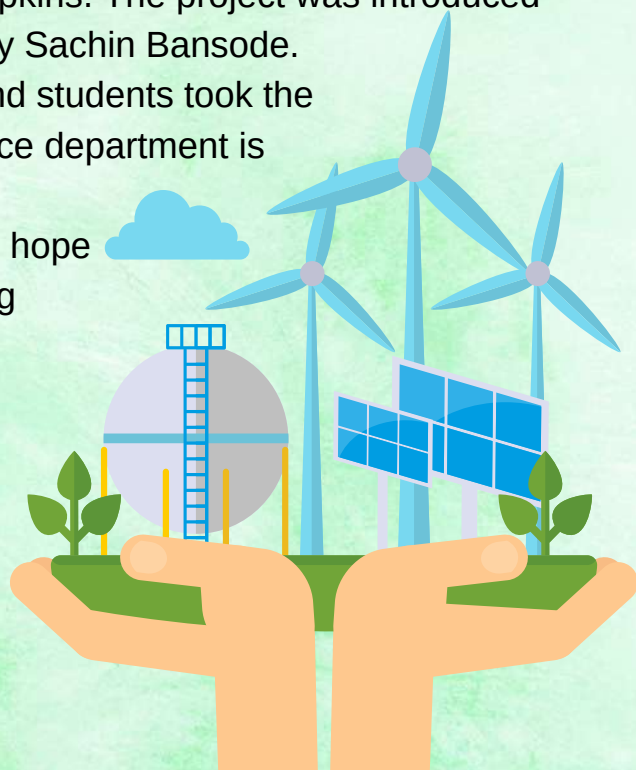

“The greatest threat to our planet is the belief that someone else will save it.” – Robert Swan, Author.

The objective of the project was to make students familiar with organic farming and also to participate in experiential learning. Students visited Mr Kundan Raut's farm at Narpad village in Dahanu. Mr Kundan Raut was in the construction business but gave up this activity and became an organic farmer ten years ago. Interested students visited Narpadon on 19th July, 2019 and transplanted paddy for better experience into farming. They were accompanied by Sachin Bansode, Asst.Prof. Bhaskar Save is acclaimed as 'Gandhi of Natural Farming.' On 24th August, 2019 the visit was to Bhaskar Save's farm 'Kalpavruksha' at Umergaon, where mixed organic farming has been practised since the last seven decades. Students learned about mulching, composting, vermicomposting and rain water harvesting from Bhaskar Save's sons and their family members. Rain water harvesting meets all the needs of the farm-portable water, needs of the residents as well as cultivation. The farm also has a gohar gas plant which uses the cow dung of the cattle on the farm itself. A wholesome lunch was served from the produce of the farm. Coconut oil is cold pressed from the coconuts grown on the farm and coconuts are not harvested, only those which naturally fall are used. The students were accompanied by the following teachers-Ms. Subhashini Naikar, Mr.Sachin Bansode and Sharada Gaitonde. Students visited Narpad on 20th February, 2020 accompanied by Dr.Kiran Mane and helped in clearing land for vegetable cultivation. They also helped in harvesting pumpkins. The project was introduced as an innovative practice and was suggested by Sachin Bansode. The written consent of parents was obtained and students took the Tetanus vaccine prior to the visit. The Commerce department is thankful to the Principal, Dr.N.N.Pandey for his encouragement and support for the project and hope that more visits be organised in the forthcoming academic year.

After that guests started to enlighten our students about the importance of voting. How voting can bring changes in the country, how affects our day to day life, how even one vote can bring change in the Government of India. The importance of voting is lost amongst the hustle and bustle of city life. While everyone sits and complains about this and that, and makes suggestions that the government should change this and that, the elections come and go without half the population paying attention.

1. The information about the highest recorded voter turnout in India was recorded in 2014 for the Lok Sabha elections at 66.4%. That means close to half the population does not exercise their right to vote.
2. As a democratic country, India is built on the foundations of election. Our Parliament and Legislatures are of the people, by the people and for the people.
3. A rally was also conducted in the college campus to make students aware of the voting rights & duties.

“A LETTER TO GOD”

“God” I can’t imagine myself without you. I feel you at every minute, in my life and every breadth. You might be SAI, GURU, DEVI, DEVTA, and GANESHA. There are so many infinite roles you perform being one. All my good deeds shower on all my well-wishers every time. Give my courage to face the evils around me and make me stronger one day ahead. I pray to almighty for keeping me away from bad deeds or evil things like negative thoughts, behaviour, and etc. “KARMA WORKS” Live life sincerely it pays....

ONE DAY YOU'LL MEET A GUY.

One day you'll meet a guy and untimely, he's is going to find out how you chew, how u sip, how you dance how you smell. Everyday how you face is camouflaged underneath all of your makeup, how you love Chocolate, and how you can be hyper all times. How certain games and shows make you really happy, how cranky you can get when you are tired, and how you think you look bad in all of your photos. He is going to know everything about you, and you know what?

He's still going to love you.

ZERO WASTE FASHION

Fashion is something that is in vogue. Fashion trends are just all about showcasing innovative ideas, clothes, etc., that are all the way comfortable for rich. Zero-waste fashion refers to items of clothing that generate little or no textile waste in their production.

Talking about the modern world, Fashion trends have rapidly grown & refashioned. This transfiguration phase causes extravagance of clothes and productive junk, but we don't use scrap, instead we throw it around like confetti. It creates toxic & garbs waste, which is futile. For a change, we could have a contrasting approach towards fashion by reworking on squanders.

When textiles are wasted so too are the resources, both natural and human labor resources, which were invested and imbedded into the textiles. It is vital to address the source of the problem by maximizing the use of textile materials and by minimizing the wastage. Adopting a zero-waste the design approach reduces textile waste and the demand for natural resources.

Reusing the clothes after completing the lifetime of it would be more serviceable. Combining different patterned pieces & creating a nifty upshot would help to uplift the fashion statement. Anonymously we could gear up not only for our fashion but also we can aid the degrading environment. We should raise awareness about minimizing misspend & maximizing utilization. It is no new concept for Creators but for the locals who search for revolutionary fashion trends.

ART OF GIVING

" MONEY IS NOT ONLY THING YOU CAN GIVE, BUT YOU CAN ALSO GIVE HELP, YOU CAN GIVE LOVE, YOU CAN GIVE CARE AND APPRECIATION, YOU CAN GIVE RESPECT, YOU CAN GIVE GOOD ADVICE, WHAT DOES IT COST TO YOU? NOTHING, YOU CAN JUST GIVE HAPPINESS TO SOMEONE WITH ONE SMILE"

Art of giving is not about giving something and expecting something in return, it's about giving without expecting something in return. The best example of giving presents, you give presents but sometimes you do expect something in return. Is that true giving or just exchange of goods? How many times you have given generously?

The art of giving is not about what expensive things you give, it's about what would make you satisfied, what would make someone happy. Sometimes you just can give your loved ones the time, love, respect, care and appreciation. That would make them happy as well as you'll also feel better when you say or do something good you automatically feel good. Not only your families, friends, and neighbours but also you can just give something to strangers maybe a piece of advice, maybe help, maybe care that would make you feel better. Giving or doing things generously would make happier than ever. Art of giving is the best thing that everyone can learn in life. This will bring everyone together, as well as helps to build up good bonds.

"HAPPINESS IS NOT FROM GETTING, IT IS FROM GIVING".

HAPPINESS

Do you believe that you are happy when you buy a new car, a new phone, a new dress and so many things?

Every time we believe "I am happy, when I buy this". You ask yourself whether the said things are giving you happiness or comfort. These two complete different things because objects give us physical comfort, happiness is an emotional comfort.

Happiness is not in what we have, it is how we think. Happiness is not dependent on situation and people's behaviour. Happiness is in how we respond to them and it is all connected to state mind.

To state an example to some divorce can be sad but to someone it could be a sigh of relief or even a breath of independence.

Need To Give a thought.....

"Rape" is the biggest the heinous and the cruellest crime. It has been eight years since Nirbhaya Gang rape case of Delhi. India has learnt something for a short span, which has severely relived Indians as a relief for themselves. But since past six to seven months, people of India of some specific region have lost their minds; as people unknowingly are speaking out something and above that in acting on that which should never be thought of.

In past year there have been many deaths because of rape cases in Uttar Pradesh and nearby areas. One case which shook the country was the one in Hyderabad where the victim has been an actress and doctor. The criminals were hanged on the tree. The number of cases have been increasing, some so called ministers just slipped their tongue to say that this is just a mistake made by the people and might happen sometime. India hopes that this statement is not true. The people who are committing this crime should live long but in hell.

Public prosecution is the best way even if they are killed. If these scenes keep on taking place then this is not Indian constitution but rather it is India prostitution. Is this what worlds largest democracy, world's most diversified nation deserves...??? Act before it's too late.....make your decisions, fight it, read it, don't follow it, kill it, and win it.....

Jai Hind.

FASHION SHOULDN'T COST US THE EARTH

Zero-Waste fashion refers to items of clothing that generate little or no textile waste in their production. It can be a part of the broader sustainable fashion movement. It can be divided into two general approaches. Pre-consumer zero-waste fashion eliminates waste during manufacture. Post-consumer zero-waste fashion generates clothing from post-consumer garments such as second-hand clothing, eliminating waste at what would normally be the end of the product use. Zero-waste fashion is not a new concept early examples of zero-waste or near zero-waste garments include kimono, Sari, Chiton and many other traditional folk costumes. Zero Waste Fashion Design is a way of creating garments where waste is designed out of a garment from the very beginning of the process. All the pattern pieces have a function and fit together like a jigsaw creating zero-waste. The designer must create a garment that can equal or surpass a traditional fashion garment without compromising the concept, fit or aesthetics

WHAT IS ZERO WASTE?

Zero Waste simply means a product or process that eliminates waste materials. The term can be applied to many different industries and can even encompass a “way of life”. Within the fashion industry, a zero-waste garment is systematically designed to avoid and eliminate wasting materials so that no textiles are disposed of.

Just like the theory behind “circular economy”, the concept of zero waste is one where everything is re-used, and nothing is discarded. It is the antithesis of the “build, buy, bury” model – a one-way ticket from raw material to factory, to user, then landfill. The circular economy has the potential to completely transform the way in which businesses operate, and resource-intensive industries like fashion are at the heart of the debate.

WHY ZERO WASTE FASHION DESIGN?

Waste is a major contributor to global warming. Solid waste landfills are the single largest man-made source of methane gas in the United States. Methane is a powerful greenhouse gas that is 23 times more effective at trapping heat in the atmosphere than the most prevalent greenhouse

gas- carbon dioxide. For me, Zero Waste is all about addressing waste as a primary root cause of global warming. A zero-waste strategy supports all three of the generally accepted goals of sustainability – economic well-being, environmental protection and social well-being.

IT'S NOT JUST ABOUT GLOBAL WARMING

Not only does working in a zero-waste is a way to stop waste from heading to landfill but have a positive impact on global warming, but it also eliminates any toxic particles discharging to the surrounding land, water and air.

There are many more benefits of preventing waste than just supporting sustainability:

1. Fewer raw materials: Quite simply, a zero-waste strategy needs far fewer new raw materials reducing resources and saving expenses.
2. Saving money: As well as requiring fewer raw materials, since waste is a sign of inefficiency the reduction if waste can reduce costs.
3. Faster progress: A zero waste strategy improves production processes.

In garment manufacture, the process from raw material to supply contributes around one-third of the waste footprint, three-quarters of the carbon impact and most of the water footprint. While opportunities to reduce these impacts may be restricted as retailers have limited influence over global manufacturers and suppliers, there is some potential to encourage suppliers to adopt more sustainable and effective processes. And designing garments with this zero-waste method is mind, is a huge step forward.

THE MOST ENVIROMENTAL FRIENDLY PRODUCT IS THE ONE YOU DIDN'T BUY

Zero-waste fashion refers to the items of clothing that generate little or no textile waste in their production. It can be divided into two general approaches. Pre-consumer zero-waste and Post-consumer zero-waste.

Pre-consumer zero-waste fashion eliminates waste during manufacture and post-consumer zero-waste fashion generates clothing from post-consumer garments such as second hand

clothing, eliminating waste at what would normally be the end of the product life of a garments such as second hand clothing, eliminating waste at what would normally be the end of the product life of a garment. Early examples of zero-waste or near zero-waste garments include Kimono, Sari, Chiton and many other traditional folk costumes.

PRE-CONSUMER ZERO-WASTE DESIGN

In zero-waste fashion, the design the designer creates a garment is through the pattern cutting process, working within the space of the fabric width. This approach directly influences the design of the final garment. Zero-waste design is a type of component which has a holistic approach that can eliminate textile waste without modifying the garment patterns.

POST-CONSUMER ZERO-WASTE

This design approach utilizes the remnants of the fashion cycle to produce new garments from second hand or surplus goods. The garment patterns and designs are second hand and the material are not so good enough.

WASTE ELIMINATION

The waste hierarchy consists of the three important points – Reduce, Recycle, and Reuse. Zero-waste fashion design eliminates pre-consumer textile waste, while not necessarily addressing waste created during the use of garment and disposal phase of the garment's life cycle.

The Art of giving

Kindness need not be a huge project; small, well-meant gestures go a long way to make a big difference.

There are many reasons why giving is important. It is a way to show appreciation to say thank you, or to show someone you care. Sometimes it is hard to express true feeling in words but offering a token of appreciation will not only represent your feeling but it will also allow the recipient to know how much you appreciate them.

A Chinese proverb says: "If you always give, you will always have." A famous American author and management expert, Ken Blanchard, declared "The more give away, the more comes back."

The intention behind your giving is the most essential thing. The intention should always be to create happiness for both the giver and the receiver and when the intention are right. It creates a pattern of happiness, joy, trust and love in your life beyond what you could ever expect.

Lao Tsu wrote a proverb long time ago that "kindness in words creates confidence. Kindness in thinking creates profoundness. Kindness in giving creates love." and that my friends is the art of giving.

Mental Health

Reading the title, you are probably wondering what exactly is mental health? In this world full of people trying to get fit physically, nobody actually tries to keep their mind healthy. Mental health is the psychological well-being of a person. We are as ignorant as a society about mental health or mental illnesses that we aren't even aware of what mental illnesses we have. Mental illnesses like anxiety, depression, ADHD, bipolar disorders are common cases. India is the most depressed country in the world. Every 6th Indian is depressed.

There are a lot of people struggling with these illnesses but you won't be able to tell. Try to remember, how many of your friends actually admitted or even have discussed about these issues? Although the people who do face these problems and are aware of it, choose to go to therapy. Therapy is essential for everyone. Even though it's expensive, it is important for everyone to go to therapy to find out what mental illnesses you have and work on them. Think of it as building a healthy mind. You eat the right diet, exercise to keep yourself physically fit and healthy, in the same way, you can take care of your mental health. We live in a society where people avoid talking about such topics. For example, the advices we hear when we tell someone we are depressed, "Be a man!", "Depression? It's just a phase.", "You have everything, how can you be depressed?" and so on. People don't realize anyone, rich or poor, dumb or smart, privileged or not, anyone can face these issues. It's important for us to talk about such issues and discuss it with friends without joking about it.

Today, if you're suffering from any mental illnesses, talk to your parents, tell them what the problem, make them understand how you feel and suggest the fact that therapy could be helpful. Don't be afraid to talk about such issues because a lot of people don't come out with these. It's important to spread awareness so more people would speak about this without being afraid of what society says.

IT'S UP TO YOU TODAY TO START MAKING HEALTHY CHOICES. NOT CHOICES THAT ARE JUST HEALTHY FOR YOUR BODY, BUT HEALTHY FOR YOUR MIND.

People of India come in solidarity against the CAA

People of India have turned out to protest on a controversial piece of legislation known as Citizenship Amendment Law (CAA) earlier known as Citizenship Amendment Bill (CAB). CAA was passed on by the parliament of India on 11th of December 2019. The Rajya Sabha passed the Citizenship Amendment bill when 125 members of the upper house of parliament voted in the favour of the bill, while 105 voted against it.

CAA provides a path to Indian citizenship for members of Hindu, Sikh, Buddhist, Jain, Parsi and Christian religious minorities, who have fled persecution from Pakistan, Bangladesh and Afghanistan before December 2014. While Muslim are not given such eligibility.

As the bill got passed protest started on a major scale, the protest is going on in different state for different reason. Protest in Assam and other north eastern states oppose the grant of citizenship to any refugee or immigrants, regardless of their religion, because they fear it would alter the region's demographic balance. In Tripura, the state is witnessing clashes between tribal vs. non-tribal. Tamil Nadu has given shelter to many Tamils from Sri Lanka. These Hindu Tamils from Sri Lanka are complaining against their exclusion from the bill. In Punjab Sukhbir Singh Badal, leader of Shiromani Akali Dal has questioned that non-inclusion of Pakistan's Ahmadiyya Muslim in the bill. According to him, several Ahmadiyya Muslim are also facing religious persecution.

While every state is standing up for a different reason but the main question raised up by every people on the street is that this law breaks the base of our constitution which states there would be no discrimination done on the basis of caste, religion and sets.

While India is facing one of its worst economic conditions, where the Gdp of the country is declining and is facing problems of unemployment, malnourishment and the growing population then why is government so dedicated to bring other immigrants and give citizenship to them. Protest is still going on, where people are coming out and asking the question to the government like till now why Kashmir is not given internet freedom? Why the government is not talking about the economic condition of India? Why the government is not giving proper information regarding CAA, NRC and NPR? Why its own people are confused? Why Amit Shah (Home minister) and Modi (Prime minister) are giving different statements? What government is going to do with the people who fail to show the documents of the required year?

Youth of India is raising their voice against it which is clearly not liked by the BJP so they say that the youth are being brainwashed by Congress. And the blame game goes on. As the people of people we have the right to express ourselves and have right to speech then why our voice is making is anti-nationalist.

Puppet show

We all sit and watch each other's fearful
blank eyes

Our eyes beg and beg but our request is
distasteful.

Opinions are a deaf message,
Knowing what will happen if they proceed
one step ahead despite they choose what
they want.

We are just the invisible growing population
which they are trying to kill.

A sharp shiny sword is placed
And we are being told to walk blindfolded.

Every day tons of people die
Under the dirty foot of the rulers.
Under their clean shaven moustache
Jillion of evil tactics run.

We are just their pawn
And they are the king,
They watch us suffering from a peaceful
island,
Dropping bombs in the name of peace.

We are the empty, emotionally disdain,
hungry puppet
Thrown in the fire in the name of peace.
Our life and their control
What a great century to live in.

Grandparents!

The wonderful stories of Angel and witch,
There is no difference between poor and
rich,
Running around me when I was small,
Teaching me the meaning of standing tall,
Protecting me from anger of DAD,
Comforting me when I was sad,
My granny and grandpa you are too good to
be true,
And I want to say that I truly love you.

You made me believe that,
You were the sun and I don't need you to
feel anything other than numb.

In The spring I realized
You told other girl the same thing that kept
me up All Night.

I knew you were bad
For me and that this would shatter me in
the end
but I'm addicted to your voice.

Sometimes I forget that you aren't mine
anymore
And I'll still waiting for you to walk through
the door.

Why didn't you do this for me when I was alive – inspired by 13 Reasons why!

He brought me flowers yesterday
It's the day he proposed to me
I was the happiest girl in the world.

He also brought me flowers today
No, it isn't our anniversary
Its the day he beats me to the death
It's actually my funeral.

If only he had brought me flowers
Then I would still be here today
Laughing and smiling with the world
With my heart filled with joy.

Love should be something beautiful
Something magical worth living for
You shouldn't be imprisoned
But free to live it and enjoy it!

Strange Love

We just walk together like no one else
around,
And we talked for an hour like round and
round.
Everything was messed up like a faded sky,
Cause he looked into my eye and felt shy.

I couldn't blame him to make me fall In love,
And didn't even see there were several
doves.

One day when he also feels the same,
And that day I will truly ask his name.

His voice was like a morning bird,
And constantly I was trying to surd.
Every way on the street felt an eternity,
And the way we walked was full of dignity.

Of his problem I was fully aware,
Cause he knew the feelings of love, respect,
and care.

Now I know he too had feelings for me,
And I was actually about to set him free.

The day had passed away at the last minute,
And our lips touch each other in a way
beneath.

It was just a part of love and story begin,
Then I told him goodbye and see you again.

Alone like a Rain!

Falling like a rain, I begin every day.
Healing all the pain, lies within a fay.
Going on the ground, to make you green.
Fill you with a food, and kill your lean.

Staring from the top, and rolling again.
This is my job, and people call me Rain.
That day is not far, when I begin to stop.
I know you'll miss me, because I live on top.

I know you see me, I live up high.
Living so alone, and about to get dry.
I fight with myself, to make you scream.
One day I'll be gone and you'll dream.

तुमसे मिलके और थोड़ा हसने लगा हु।
तुम्हारे बालों में उलझने लगा हु,
तुमसे मिलके अपने गम सुलझाने लगा हु।
तुम्हारी आँखों की गहराई में डूबने लगा हु,
तुमसे मिलके तुम्हारे प्यार में बेहने लगा हु।
तुम्हारी हँसी में अपनी खुशी दूढ़ने लगा हु,

साथ है तुम्हारा
तुम्हारा है सहारा,
हमारे हो तुम,
किसी और ने तुम्हे MINE क्यों पुकारा
सीने में धड़कते हुए इस दिल का हिस्सा हो तुम,
मेरी ज़िंदगी का एक बहुत महत्वपूर्ण किस्सा हो तुम,
न जाने क्या असर हुआ तुम्हारी दोस्ती का,
अब आदत हो गयी है मुस्कराने की
जो खोया वह हमारी नादानी थी,
पर तुम्हे पाए ये उस खुदा की मेहेरबानी थी,
सफल दोस्ती का यही उसूल है,

वही कुछ हादसों ने मुझपर
कलंक लगाया है
वो दर्दनाक पुलवामा हादसा और

भूलू कैसे मैं ये सफर
जहा इंसानो ने शैतानी रूप दिखाया है

हर सुबह ने मुझे निखारा है
हर रात ने मुझे सवारा है
तारीख मेरे साथी बने
हर पल इन्ही के संग गुज़ारा है
आज आखरी रात है मेरी तनहाई की,
कलम एरा भाई आ रहा है,
बस अलविदा मेरे दोस्तों,
अब मेरा सब्र जा रहा है

वक्त आ गया है मेरे जाने का,
मन बहुत उदास है
किसी के लिए बुरा, किसी के लिए था मैं खास
खत्म हुआ मेरा ये वनवास
१२ महीनो बाद जा रहा हु मैं अपने पुराने सालो के पास

गर्मिओ और सर्दिओ ने मेरा खुब साथ दिया
पर नटखट बारिश ने मुझे खूब परेशान किया
त्याहारों से मेरा सफर और बेहतर हुआ

ना मैं बन्दर, ना मैं भालू

मैं एक इंसान, मैं एक इंसान

झरनो से गुजरते हुए, गावों को छोड़ते हुए,
बस चल रहा हु, बस चल रहा हु
मैं बस एक इंसान, बस एक इंसान,

लोग हसते मेरी इन कोशिशों पर

जो बस चलती ही रहे।

आयुष्यातले ते क्षण...

जळण्यासाठी काही नसलं की, पेटलेली काडी सुद्धा आपोआप विझते. धनुष्यबाणातून निघालेला बाण आणि तोंडातून निघालेला शब्द परत घेता येत नाही, त्याचप्रमाणे आयुष्यातले ते क्षण परत मिळवता येत नाही. शस्त्रक्रिया होण्यापूर्वी रोगी घाबरलेला असतो. बर झाल्यावर शिवलेली जखम तोच कौतुकाने सांगत सुटतो. प्रॉब्लेम्स कोणाला नसतात? ते शेवटपर्यंत असतात, पण प्रत्येक प्रॉब्लेमला उत्तर असतंच. ते सोडवायला कधी वेळ हवा असतो, कधी पैसा, तर कधी माणसं. आपलाही कोणाला कंटाळा येऊ शकतो ही जाणीव फार भयप्रद आहे. बोलायला कुणीच नसणं यापेक्षा आपण बोललेलं समोरच्यापर्यंत न पोहोचणं ही शोकांतिका जास्त भयाण. विचार करण्यासाठी काही नसलं की आठवतात ते क्षण, जे दुःखातून काही शिकवून गेलेले आणि आनंदाने उथळी भरून वाहणारे. शेवटपर्यंत सोबत राहतात ते क्षण.
