**“Our passions are the true phenoxies; when the old one is burnt out and new one rises from its ashes.”**

An institution which started with a handful of students five decades ago, has gradually risen to a level of a premiere Degree college with P.G. courses in the western suburbs of Mumbai. The college since its inception has been striving hard to provide quality education at an affordable fee structure. The college today is an educational edifice of excellence with its most talented and experienced staff offering a variety of courses in Arts, Commerce and Science both at UG & PG Level.

The magazine is to be viewed as a launch pad for the student's creative urges to blossom naturally. As the saying goes, a mind is like a parachute that works best when opened. This humble initiative is to set the budding minds free allowing them to roam freely in the realm of imagination and experience to create a world of beauty in words.

The enthusiastic write ups of our young writers are indubitably sufficient to hold the interest and admiration of the readers. This souvenir is indeed a pious attempt to make our budding talents give shape to their creativity and learn the art of being aware because I believe that our success depends upon our power to perceive, the power to observe and the power to explore. I am sure that the positive attitude, hard work, sustained efforts and innovative ideas exhibited by our young buddies will surely stir the minds of the readers and take them to the surreal world of unalloyed joy and pleasure. My team has put in relentless efforts to bring excellence to this treasure trove.

The college is an incarnation of self-respect, love, affection, sensibility; responsibility and compassion which puts the students into a “State of flow” We recognize, appreciate, applaud and foster the fine blend of sensibilities in a child changing a negative outlook from drab and demoralized to bright and expectant. This college attains its eminence in the first place through the achievement of students . The magazine also espouses the spirit which is built up within the college through the collective actions, thoughts and aspirations. All these, I believe, would spur higher growth and enterprise in children.

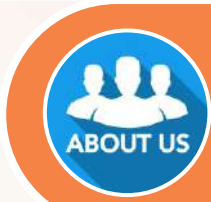

This year's magazine brings you the celebration of the undeterred hope and optimism that a man carries in the face of adversity. The challenging times have left a scar but nevertheless, made us stronger. Like the phoenix, we have risen from the ashes and we are ready to claim our space.

**Once again thank you everyone!**

# CHAIRMAN MESSAGE

**...we behold what we are, and we are what we behold...**  
**\_Essence of Chapter 11, Sri'md Bhagavat Gi'ta**

2022 holds very dear to us as Prahladrai Dalmia Lions College is celebrating the Golden Anniversary. We have almost come out of Covid19 pandemic impact-1 covering about 3 waves of various levels of disruption in our life. What better an opportunity would there be, to enumerate our 50 years of long and glorious legacy, and also to pave way to a brighter future?

The entire education sector has seen an array of massive challenges while we were facing the peak of the pandemic. It also provided us with a retrospection as to how much and how fast can we respond to such global and national threats. Whether it was the technology access or up gradation of the classroom or strategic and timely inputs from the universities, we have seen that the sector requires fundamental improvements, especially in our approach to education.

As if the pandemic disruption was not enough we are soon going to face another major sector disruptor, this time, a positive one. With whatever little I could gather speaking to subject experts, the National Education Policy (NEP) is being implemented aggressively with tight deadlines. Though the direction is welcome, it occurs to me as pre-mature, as the systemic weaknesses have not been addressed adequately. To call the shot for 'Perform or Perish' like that in the industrial sectors through an urgent decentralisation could lead to unpalatable setbacks.

However PDLC like before have tried to be a notch ahead as we realised that the way forward is skill based competency development. In this backdrop we re-commit ourselves to improvising the subject delivery, student service and choice of trades. We have in concept agreed to dedicate more resources in this prospect of being future ready.

A capability to achieve holistic Students' Development is what we at PDLC aspire to. This would mean the curricular, co-curricular and industrial development providing a 360° competitive environment for the budding talent. Numerous initiatives are enlisted to this effect, and additions and suggestions are always welcome. I recognise that the college has a stellar battery of alumni and alumnae. Their representation as well as contribution to the institution would be vital to its development.

Our staff team, teaching and non-teaching, have stood fast in the bumpy ride during the disruptions, which deserves a roaring round of applause. The institution leadership under Dr. Lt. Kiran Mane and his immediate team of functional heads Mr. J. Golmes, Dr. Madhavi Nighoskar, Ms. Subhashini Naikar, Ms. Kiran Mishra and Mr. Anil Bagade have ensured that the college operations proceed seamless, and the students are affected the least. There are yet rooms for improvements that we are looking forward to.

My own team-mates in the Governing Council and our Patron-Trustees of Lions Club of Malad-Borivli College Charity Trust have been my source of inspiration and energy. This 50 long year partnership speaks volumes about the steadfast will, and commitment to the cause of education. I offer respects and appreciation for the honour of serving with these supportive custodians. A respectful mention for the departed souls, our Founding Fathers and Elder members is due in the grand Golden Anniversary. I thank you all, and may God bless. Jai Hind.

# SECRETARY MESSAGE

Dear Readers,

In this Golden Jubilee Year of Prahladrai Dalmia Lions College of Commerce and Economics, I convey my greetings and best wishes to all the readers of 'SPECTRUM' Magazine.

I thank one and all for their relentless efforts and selfless services towards the noble cause of facilitating quality education to the thousands and thousands of students.

With whole hearted support given by everyone, we have sailed through smoothly in this difficult time of lockdown.

We have traveled five decades together and seek to continue our journey with optimism and enthusiasm, for better future.

Today the future of the world belongs to commerce education. Prahladrai Dalmia Lions College of Commerce and Economics has now opened its doors to yet another venture of Research. Students can now pursue their PhD in Accountancy, Economics and Commerce under able and recognized guides of Mumbai University.

The College's academic success comes from well-trained teachers and able administrative staff.

For parents, my humble advice is don't pressure your child to chase marks. Ultimately it is learning which is more important, not marks.

PDLC is one of the leaders in Commerce College that encourages Scholarships, independent thoughts and effective learning habits through coherent and balanced teaching programs.

I take this opportunity to thank one and all who stood by me and extended whole hearted support in discharging my responsibilities.

Together each one achieves More (TEAM).

In our college we have an International Social Club - Leo Club of Malad Borivli Dalmia College, which gives our students - Leadership opportunities and means to serve the community.

I invite all our Alumni to participate in the Golden Jubilee Year Celebration of the college.

**Yours in Education,**

# PRINCIPAL MESSAGE

**“We don't develop courage by being happy every day. We develop it by surviving difficult times and challenging adversity.” - Barbara De Angelis**

Adversity and challenge were the two words that each of us faced amidst the Covid 19 crisis. Every household, every individual faced the challenges put forth by the crisis. All our stakeholders – students, their parents, staff, members of the management, too faced them with daunting courage. These times of adversity taught us many things. All our staff braced the challenges of the online teaching-learning process with great alacrity.

Learning may begin in the classroom, but it certainly doesn't end there. Teachers set up the signs for the road ahead inspiring students to learn wherever life may take them. This was enunciated boldly by our staff. The coming back to offline teaching was accompanied with fear and doubt but I am proud that our staff took up the cudgels to fight back with great enthusiasm. The online-offline combined mode of teaching had its own set of difficulties hitherto unknown but our staff was undeterred. Our management upgraded the technological support and made provision of internet in all classrooms to provide our students with continued learning process without any hassles. I am very grateful for the timely decisions taken by our proactive, management in supporting the staff to meet all adversities.

This year too saw a number of webinars and virtual conferences. Our MOU with DTSS College and Vocskills helped our students grow in the field of research and enhanced their career related skills. The highlight of the year was the Inter-collegiate 'Dalmia Stock Exchange' conducted in the offline mode.

I am indeed proud of our outreach efforts – The Lions Club of Malad-Borivali project “Inspire to Serve”, the Corona Virus Vaccination Drive (CVVD), visit to an old age home, “Art of Giving” event by teaching staff reaching out to give joy to the inmates of Community Development Centre, Malad which is a Home for protecting and rehabilitating vulnerable children in despair, to name a few. These were proof to the fact that, “Adversity in our life may seem like a problem, however, adversity can make us grow and learn, an opportunity that we may never have experienced. It all depends on how you look at it” (Catherine Pulsifer).

I am indeed blessed that with the help and cooperation of a proactive teaching faculty and administrative staff, a very supportive and encouraging management at my side, I am sure that Prahladrai Dalmia Lions College will be successful in “creating icons of tomorrow” that will keep aloft “the values of humanity and social responsibility”.

The vision envisaged by the stalwarts of the Club was finally converted into reality and the foundation stone of the college was laid in April, 1972, with a handsome donation from the Dalmia family of Prahladrai Dalmia Charity Trust. Within a record period of 100 days the college building was completed. The college was inaugurated by Mr. T. K. Tope, the then Vice Chancellor of Bombay University. The Institution that started with 450 students has today become one of the premier institutes in the western suburbs. The College endeavours for academic excellence and promotion of co-curricular and extra-curricular activities that promote resilience, creativity and leadership qualities among the students. ## PDLC FILM SOCIETY

**“Cinema is a mirror by which we often see ourselves.” – Alejandro Gonzalez Inarritu**

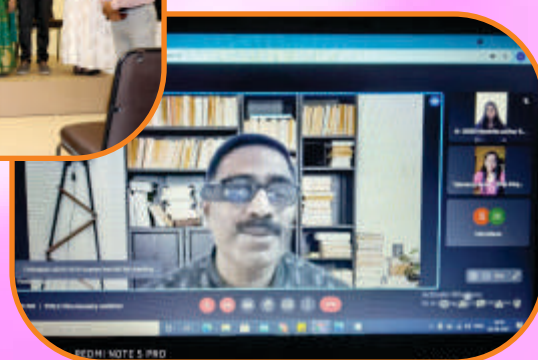

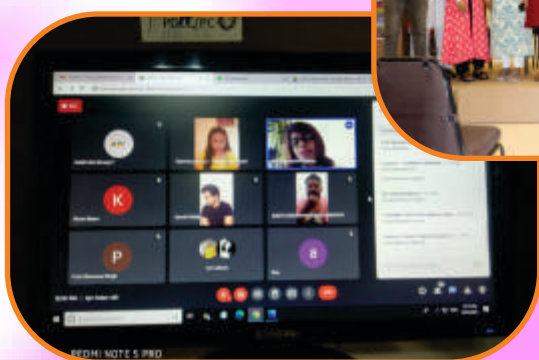

The first event of film society has been to foster the appreciation of the art of film. The second event has been to emphasize the social dimension of film in culture, sometimes using the film as a prop for the examination and propagation of moral and political ideas. It also concentrates on improving sensitivity among students about various issues. The Film Society was created to raise awareness in the current generation so that they can be responsible citizens in the time to come. Film can be used to reach a wide audience, to inform and inspire change through engaging audiences and reflecting society.

On 6th August 2021, The B.A. (MMC) program in association with PDLC Film Society had organized a seminar on **“Suhana Safar - A Tribute to evergreen Bollywood Actor Dilip Kumar”**. The Chief Guest was Dr. Santosh Rajni Gajanan Pathare who is a director and General Secretary at Ahmedabad also won many awards for films. He talked about the famous Dilip Kumar Sharyas which inspired all the students. The other guest for this event was Mr. Anil Chandak cinephile for this seminar and the last guest was Mr. Haresh Panchal who was also fond of cinema. Both of them discussed the industry and provided knowledge to all the students. The guests had shared the beautiful stories of Dilip Kumar along with it and conveyed about his achievements and his successful journey in cinema. They elaborated about their goals and steps to achieve success. Focused on the various aspects and made the audience aware about the importance of films. This event was attended by Dr. Kiran Mane I/C Principal, Ms. Subhashini Naikar Vice-Principal of Self-Finance courses, Ms. Bhavana Singh Coordinator of B.A.MMC program, Ms. Minu Paul and Ms. Kritika Rao.

On 23rd September 2021, The B.A. (M.M.C) program in association with IQAC had organized **Short Film Festival- an Intercollegiate Event**. The judges for this online event were Mr. Kaifi Chauhan and Mr. Sumit Satija. Both of them shared their views, conveyed about their acting experience, gave them tips and made students realize the meaning and significance of short films. This event was attended by the Dr. Kiran Mane I/C Principal, Ms. Subhashini Naikar Vice-Principal of Self-Finance courses, Ms. Bhavana Singh Coordinator of B.A.MMC program, Ms. Minu Paul and Ms. Kritika Rao. All the students had displayed their work by showcasing amazing short films. Short films consisted of social impact and the latest issues were covered by students. It became difficult for judges to decide the best short film. A short film is an inexpensive way for students to experiment and learn what works; that knowledge can then be used and gives encouragement to the students to make bigger films.

On 22nd April and 23rd April 2022, The B.A. (M.M.C) program in association with Cinema 4 Screen had organized a two day International Film Festival. There were a lot of documentaries, animation films and short films made by students from around the globe.

The guests for this event were Rajdeep Sickder, Aparna Upadhyay, Subhash Chaturvedi, Ashish Kulkarni, Sampad Roy, Sunil Gawai, Kalpana Rathore who were a part of the jury. The guests found all the films interesting and impressive. The guest concentrated on the sweet memories of film making through which students got exposure to many things such as acting, camera angles, and how to face the screen as all the guests were media professionals including directors, producers and actor. This event was attended by the Dr. Kiran Mane I/C Principal, Ms. Subhashini Naikar Vice-Principal of Self-Finance courses, Ms. Bhavna Singh Coordinator of B.A.MMC program, Ms. Minu Paul and Ms. Kritika Rao. Prahladrai Dalmia Lions College of Commerce and Economics celebrated the 75th Independence Day with great pride and enthusiasm. On this day, we Indians celebrate our heroes and freedom fighters who sacrificed their lives for the nation, to bring us freedom, peace, and joy.

Worthy of its effort, a systematic parade was done by our NCC Cadets which signified methodology and Perseverance. Soon after that we honored Corona Warriors and thanked them as they were selflessly putting themselves at risk to keep the situation under control; to keep us safe. It would have been impossible for us to sit safely in our houses and resume our work without the hardwork and dedication of Corona Warriors. It is owing to their effort that we are coping with this pandemic in a comfortable manner.

Students were present in large numbers to celebrate this day. College campus was filled with the spirit of patriotism to respect the glorious past of our country.

## DEPARTMENT OF LIFELONG LEARNING AND EXTENSION (DLLE)

**"Distance shouldn't be a factor in learning but hard work, focus and hustle should be".**

The Department of Lifelong Learning & Extension (DLLE) has been recognized as a Statutory Department of the University of Mumbai since 1994. It aims to promote a sustained rapport between the University & the Community. The Extension dimension of the Department facilitates the sensitization of the students to the socio-cultural realities. The department offers extension work projects encompassing social issues to the students.

The Department is spearheaded by Dr. Shami Nimgulkar- Kamble (Economics Department) & three most enthusiastic teachers Dr. Mahendra Pachadkar (Law Department), Mr. Sandeep Gupta (Mathematics & Statistics Department) and Ms. Priyanka Radhakrishnan (Self-Financing Courses). To ensure efficiency in the execution of the extension work & to assist the teachers in the work involved, the extension activity of the Student Managers was felt pivotal. The pillars of the department (Student Managers) were: Mr. Omkar Mahadik, and Mr. Adwait Khatu.

As per the University circular most of the extension activities were conducted online. To encourage students to join DLLE we made a promotion video that narrated the activities undertaken by DLLE in the yesteryears. The video was also uploaded on the college YouTube page ([https://youtu.be/\\_IL0FXuwgKQ](https://youtu.be/_IL0FXuwgKQ)). The video was well received by everyone. On receipt of the circular from the university to enroll students, the Department of Life Long Learning & Extension (DLLE) of our college began the process of enrollment and we enrolled a total of 111 students for the academic year 2021-22.

The Department this year enrolled students under:  
1) "Population Education Club (PEC)".

The purpose of PEC is to educate the present generation about population, development and environment for a better quality of life of their own and for their future generations.

The Extension work teachers and students attended the Extension work Training Program to implement activities in Online mode. The said program was held on ZOOM platform on 10th January, 2022 which was hosted by K. J. Somaiya College of Science & Commerce, Vidyavihar(East).

Our Field Coordinator Dr. Sulbha Raorane addressed & guided our extension students in both the terms. Her valuable guidance helped the students in completing their project work.

**List of activities conducted in the Academic Year 2021-2022 are as follows**

### **1) Inspire to Serve:**

On behalf of the Lions Club of Malad Borivli along with Prahladrai Dalmia Lions College of Commerce and Economics that had organized a session inviting innovative ideas "Inspire to Serve." The Department of Lifelong Learning and Extension, DMC, NCC, EOC, Students' Council of our college proposed three projects. Out of these 3 projects, 2 projects were selected by the Lions Club of Malad-Borivli and they sanctioned Rs.10,000 each for executing the project at community level.

The details of the project are mentioned below:

### **PROJECT 1**

A) Title of the Project: AATMANIRBHARTA SE ATMASANMAN

**B) Names of Student (Leader + All Group Members):**

- 1) Omkar Mahadik M.COM – I
- 2) Adwait Khatu M.COM – I
- 3) Tahir Idrisi TYBCOM A
- 4) Swarangi Joshi TYBCOM A

**C) Details about the nature of assistance to be extended to the community:**

**i) Place selected for executing the project:** Parivartansheel Sanstha, Kranti Nagar, Kandivali East.

Parivartansheel Sanstha is a registered organization focusing on the health, educational and economic issues of weaker sections and working in Kandivali and Malad suburbs of Mumbai since last 8 years. The organization was formed by the people living in the local community. Parivartansheel Sanstha was registered in October 2009 under the Society Registration Act 1860 and Bombay Public Charitable Trust Act 1950. All Donations given to Parivartansheel Sanstha are deductible under section 80 G.

**ii) Nature of Assistance:** The amount of Rs. 10,000 received from Lions Club of Malad Borivli was used to donate one sewing machine and some raw materials related to tailoring (Scissors, Canvas Paper, Threads –two boxes, Tape - One packet, Machine needles) to the community center started by the Parivartansheel Sanstha. The Sanstha was donated 2 sewing machines recently and our additional donation assisted them in carrying out the activity of imparting tailoring skills to women in the area more intensively.

After deliberating with the project in charge we understood that ideally a teacher charges a minimum of Rs.3,000/- per batch of an hour for a month. If two batches were to be made functional, the total cost of appointing a teacher was coming to Rs. 6,000 per month. We teachers (Dr. Shami Nimgulkar Kamble and Mr. Rajesh Ruke) have borne the cost and we paid the salary of one teacher for first three month (2 batches) which amounted to Rs. 18,000/-

**iii) Outcome of the Project:** 2 batches of 11 women each were made. Tailoring classes were being organized for them from 3.00 pm to 6.00 pm from Monday to Saturday. The classes began from 13th July 2021.

**PROJECT 2**

**A) Title of the Project:** Sanjay Gandhi National Park

Dhaval Haria (provided us with free transportation and packing of food kits)	Ex-Student

C) Details about the nature of assistance to be extended to the community:

i) PADA SELECTED: Chuna Pada, Sanjay Gandhi National Park.

ii) REASON FOR SELECTING CHUNA PADA:

Pre-Survey findings: On 30th June, 2021 we interviewed the officials of SGNP and members of Birsa Munda Adivasi Sangathana (a local NGO) and on the basis of information gathered from them we got to know that CHUNA PADA comprises of absolutely poor people and hence we decided to execute the project in the said pada. The said pada is approximately 4 kms from the National Park Main Gate and it is the last Pada. It is 2 kms prior to Kanheri Caves. We visited Chuna Pada and gathered primary information about the socio-economic status from the tribals.

All padas in National Park have no access to electricity or water. The tribals are not allowed to construct pucca houses; so, all the houses are kutcha houses made up of iron sheets. They cover their houses with plastic sheets in the monsoon to prevent water seepage. None of the houses have toilets. There is no mobile network at Chuna Pada.

Men are mostly employed as house - keeping staff by the forest officials and women work as domestic helpers. Children attend school in Abhinav Nagar and have to walk through a jungle area (1/2 hr one way) to reach the school. There is constant fear of animal attack and hence most parents are scared to send their children to school.

iii) NATURE OF ASSISTANCE EXTENDED: We carried out the donation camp on Saturday, 3rd July, 2021 at 2.00 pm in Chuna Pada, Sanjay Gandhi National Park With the help of financial assistance received from the Lions Club of Malad –Borivli, we donated a FOOD kit- Comprising of Rice (2KG), Wheat Atta (2 KG) and Oil (1 LITRE) to 29 families.

Few teachers (Mr. Rajesh Ruke, Dr. Shami Nimgulkar Kamble and Mr. Sachin Bansode) decided to make donations to 29 families. We also decided to donate stationery to 48 children (right from 1st standard till Second Year degree) of Chuna Pada. The details of donation made is listed below:

## 2) International Yoga Day:

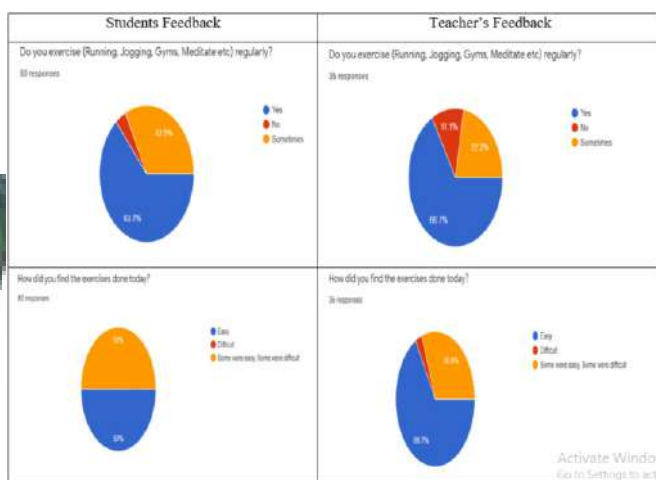

On the occasion of the 71st International Yoga Day, we conducted a live Online Yoga session for teachers and students on 21st June, 2021. The total number of participants were 80 students and 36 teachers.

"The essence of yoga is not to attempt to contort the body into inconceivable postures, but to attempt to attain, conserve and maintain a balanced-state of mind to start with and thereafter to transcend the mind, ego, intellect and then launch tangentially beyond to realize and remain established in the SELF." – Yoga Guru Shivalingam Pillai. All that one then does should be a step taken in this direction and the insight and balance derived 'ON THE MAT' from the practice of yogic techniques should be maintained throughout 'OFF THE MAT', implying that it should seep in, percolate and become an inseparable part of one's being and reflect in one's thoughts, words and deeds.

We were fortunate to have Yoga Guru Shivalingam Pillai, a trained Yoga Expert to guide us.

The said programme was organized by- DLLE, NSS, NCC, DMC, EOC and Student's Council.

The feedback for the programme conducted is mentioned below:

## Report on Workshop Series on "Drafting, Mapping and Attainment of Outcomes" 2021-22

Internal Quality Assurance Cell organized a series of workshop on: "Drafting, Mapping and Attainment of Outcomes" from October to December 2021. These were hands-on workshops that aimed to bring to the teaching fraternity a thorough understanding of the major concepts involved and practical sessions on the process involved in drafting, measuring and mapping the attainment of outcomes was organized.

**Objective:** The University Grants Commission (UGC) has now taken steps to introduce the Outcome-Based Education (OBE) system for all universities in the country with a view to producing skilled graduates as per demands of job markets. Its 'Quality Mandate' lays great emphasis on improving quality of teachers, imparting life skills to students and changing the assessment pattern. It states, "To ensure evaluation that is more student-oriented than examination-oriented, outcome-based education (OBE) is an important alternative and HEIs (higher education institutions) may need to implement this as early as possible". The mandate also states, "The concept of OBE stresses the importance of demonstration of learning outcomes by students rather than just attaining marks in the examination." Thus the need of the hour is a thorough understanding of the concept of Outcome based Education, that can be measured and mapped through:

- Course Outcomes (CO) - Knowledge & skills acquired via course/curriculum
- Program Outcomes (PO) - Expertise developed after completion of the program
- Program Specific Outcomes (PSO) - Expertise of graduates of a certain program

The NEP 2020 lays emphasis on ICT and LMS integrated technology for meeting the teaching-learning goals to maximize the student learning outcomes.

This series of workshop on: "Drafting, Mapping and Attainment of Outcomes" was a hands-on workshop that aimed to bring to the teaching fraternity a thorough understanding of the major concepts involved and practical sessions on the process involved in drafting, measuring and mapping the attainment of outcomes. Our first workshop was on "Using Blooms Taxonomy to draft Programme Outcomes and Course Outcomes" on 21 October 2021.

The second workshop was on Thursday 18 November 2021 on the topic : "Mapping the Institutional PO's and CO's".

And the third workshop was on Thursday 16 December 2021 on the topic : "Calculating the attainment level of PO's and CO's".

**Outcome:** The series of workshops had a gap of almost four weeks that enabled the faculty to actually work upon the drafting of our institutional Programme Outcomes and Course outcomes and understanding how to map the attainment of Outcomes. All faculty members keeping the guidelines in mind effectively revisited and redrafted their respective courses' Cos and Programmes' Pos. The methodology of measuring attainment was also worked out.

# A DAY IN MY LIFE AS A MEDIA STUDENT

It was in 2019 I got in the B.A.M.M.C. department the students were new and so was the course and the spirit to be a journalist after the first semester was over during that time Maharashtra legislative assembly elections were going on and in our class of fundamental of mass communication we use to discuss Maharashtra's election it was only on 2nd October on the occasion of 150th Gandhi Jayanti I and my classmates got an opportunity to witness and be the part of famous zee news debate "taal thok ke" hosted live by zee news star anchor Aman Chopra.

We all were excited about this debate show, our professor Mr. Aditya Tiwari use to work for the zee news and Times network as a broadcast reporter and he arranged this exclusive event for us.

The very first of taal thok ke was conducted at zee news office at lower parel on the open terrace the view was amazing and then the preparation of the show began arrangement of cameras, checking of microphones, inviting the guest from the major political parties i.e shivsena and BJP and as soon as the guest was invited and introduced the show began anchor started asking the fiery questions one after the another and the political leaders were answered it fiercely many valid points were discussed and questions about the development of Maharashtra was raised the last 15 minutes of the show was allowed to the media students like me to ask the questions directly to the political leaders and it's was the very first time I got an opportunity to be live on the national television I was excited and nervous at the same time and when the camera came to me that feeling was just amazing I asked the question about the potholes problems that Mumbai is facing every year in monsoon.

The debate was a 3 day the first one was at lower parel the second one was at the country club Andheri the second debate was even more exciting than the previous one this time I was more confident and eager to ask the questions and again at the end of the debate I got an opportunity to ask the questions directly to the political leaders and this time I asked about farmer suicide in Maharashtra. The third day was at marine lines in the open ground with the beautiful view of the sea just across the road as the third event was in the open ground as soon as the debate started the crowd started to gather and the debate became more lively and interactive this time as well I asked a question but now I was feeling like a reporter and was intrigued to ask the question.

After the event we also got the opportunity to interact with news anchor and senior zee news correspondent Ankur Tyagi and get a detailed explanation about the functioning of the live show, and how to ask questions, what questions should be asked, and many more.

At the end of the three-day, I received a certificate from zee news for actively participating in the debate. It indeed was a great day with a lot to learn and experience and the traveling part at all these places was another amazing thing that I did.

With Covid-19 playing havoc with exam schedules, online examinations are slowly becoming mainstream. However, are online examinations a boon or bane? The education system all across the world has gone through a paradigm shift, in terms of resources, and mode. Now 'online teaching and examinations' have become a new normal.

When 2019 was heading towards its completion, and everyone was busy planning for his or her New Year resolutions, and then came the unwelcomed pandemic, which is now popular with the name of Covid-19. By its high blow, the pandemic affected almost every age group and most prominently, the upcoming generation, i.e., Students that nearly involved around 500 million. Everyone thought that the pandemic would last soon but this thought converted into an unsuccessful wish.

Let us have a look at what is next: The education system all across the world has gone through a paradigm shift, not just in terms of resources and content but also in terms of mode, when the world was entirely under lockdown for almost six months. Since the rise of the pandemic, teaching moved online and that too at a considerably high degree in both schools and universities worldwide. Now 'online teaching and examinations' have become a new normal. In this lockdown, Information Technology has emerged as a superhero. When things are taught, then it also becomes necessary to take assessments. Hence, the need for online examination arises.

**What are online examinations?** The term itself reflects its definition. It is the mode of examination in which an assessment involves the internet, a virtual screen instead of an invigilator and the student has to type in their answers instead of a handwritten one.

Since this mode of examination is very much new to the Indian Education system, it has to be implemented with a slight precaution, for that, let us look at some of the pros and cons of this system.

#### **Advantages of online examination**

Some of the advantages of online examinations are mentioned below.

1. **Reduces cost:** The cost of the examiner and the student who is giving the exam is reduced. The cost of the paper and ink reduces to almost half of the traditional method. The transportation cost of reaching the centre for both examiner and students is eliminated.
2. **Improves time management skills:** In online examinations, the timer runs above or below, which reminds the students to complete the exam with the time-bound? It helps students in improving their time management skills.
3. **Immediate results:** In most cases, the evaluations made in the online mode of examinations are performed by botching some examinations; answers are already installed in the background process. Hence, as the time-bound reaches zero, the answers are submitted, and just in a minute, the result is displayed over the screen.

**Disadvantages of online examination:**

Some of the advantages of online examinations are mentioned below.

**1. Connectivity issue:** As the exam is executed online, it needs a good internet connection. The connection is not constant in some places. Hence, if connectivity loses, then there is a high probability of getting the entire response failure if the backup doesn't exist. **2. Comfort ability:** Not everyone can adjust himself or herself in the online examination environment physically, either mentally, or financially. Some of the students do not have access to large screens to better view the lengthy questions. In addition, some of them lack the process of execution. **3. Cheating practices:** Although the exams are taken based on trust in the students, some of them succeed in adopting malpractices like cheating.

Do we need to reconsider that these methods have loopholes and it drastically affects the students in numerous ways? In September, the Supreme Court of India cancelled proctored examinations on the argument that it marginalizes the underprivileged.

I think that for small classes it is not good. For higher classes like graduation, it can be good. Because in small classes mind is not matured. Almost all student's objective is to get best marks by hook or crook, as if we have mentioned boon or cruse. That methodology is not good for small children. So, for them offline should be the only to conduct exams. However, in my view online exam is bane more than boon in recent pandemic years. In the world was entirely under lockdown for almost six months. Since the rise of the pandemic, teaching moved online and that too at a considerably high degree in both schools and universities worldwide. Now 'online teaching and examinations' have become a new normal. In this lockdown, Information Technology has emerged as a superhero. When things are taught, then it also becomes necessary to take assessments. Hence, the need for online examination arises.

# LIFE AS A NIGHT STUDENT

Are you one of those students who work full-time during the day and then find yourself sitting in the classroom all night, just to repeat the same process the next day? If that is you then you are in the right place. Today we are going to discuss some tips that will help you excel in your night classes and help to balance your personal and school life.

Being a night student is not the end of the world, there are many benefits such as more peace, fewer distractions, more opportunity for open discussion, and the ability to ask more detailed questions because of the period of the class. As a night student myself, I know that I struggle with keeping myself focused during lectures, simply because I'm so burnt out and tired from my workday that class is a hard task for me to complete. Instead of letting the class defeat me, I have found ways to conquer my tiredness and lack of focus. I have designed a schedule that allows me to read and study the material that we are going over that night beforehand. This allows me to truly tune in and understand the material during the normal lecture so that I can have time to ask questions when I'm confused and take specialized notes on each topic. Taking notes before class has helped me remain focused in class because I want to make sure that whatever I have correlates with the teacher.

Night classes are not impossible but they can become difficult if you do not prioritize your time and find study methods to fit your specific needs. The night student's first rule is you have to want this and be determined. If you focus on your outcome and work with your instructors, you will be able to do this. Have a strong support system in place. Yes, you might have to spend a little time away from your family, but promise them you'll make up the time after graduation. Remember, you will need their support to make it through this journey. Make a calendar as soon as you get your syllabus and set up dates and times to get your assignments and projects done. Set up a schedule. You want to set aside time to study and a schedule will help. Build relationships with other students. One good thing about going to the right school is that you are not alone. You are with other students just like you. You will meet husbands, wives, parents, and full-time workers. There is a camaraderie among night students with whom you share guides and tips on how to study and pass exams. You will also build relationships that will last long after graduation.

## *YouTube New Career Prospect...*

Gone are the days when we had only a few career options to answer when we were asked what we want to become. Youtube has emerged as the most popular career option that the upcoming generation wishes to pursue.

Is it good enough to be considered as a career option? For decades, we have had career options that have been playing well and are respected by society. However, these options are not flexible enough to allow people to express their creativity. Youtube fills that void. Youtube allows people to express their creativity and get some appreciation for it if it is good enough.

**What about the money? Is it remunerative enough to pay for all of our expenses?**

YouTube is not remunerative until the creator has a healthy subscriber base. A healthy subscriber base is a consequence of creative content being discovered and liked by others on the platform. Youtube becomes remunerative enough once the creator has a healthy subscriber as the money starts flowing from different sources. YouTube pays a creator with a healthy subscriber base for every ad displayed on his/her video. This is known as "Ad-Revenue". For companies, the subscriber base of any creator is seen as the pool of potential customers to whom they could market their products. Hence, companies pay fat fees to creators to promote their products. A creator could also leverage his network to promote his/her personal branded products or digital products. Therefore, a creator could earn enough money to pay for all his/her expenses only if he has a healthy subscriber base which takes some time. This is essentially, why many YouTube creators do Youtube videos alongside their full-time job. In addition, a creator might not earn a steady income, which a person with a regular job does. Youtube creators leave their jobs only when they are fully convinced that their earnings could pay for all their expenses.

**Would our parents accept YouTube as a career?**

They will not accept YouTube as a profession. They would not be convinced unless earnings from youtube are as good as earnings from any other profession. Therefore, if a creator is earning enough he must show his/her earnings to his/her parents as proof so that they could allow him/her to pursue youtube as a career. So youtube could be pursued as a career only at certain terms and conditions are met.

**Who is it for?**

Being a YouTube, you are your boss. You have nobody to be accountable to which means you have nobody to set deadlines for you. You have to do that on your own. The world of youtube rewards creators who are creative, disciplined, consistent, patient, and determined. If you have, these qualities do not stop yourself from unleashing your creativity by pursuing youtube as a career option. Even if you fail to succeed in the world of YouTube, you will have a set of skills that could land you a job.

# HOW TO TRAIN YOURSELF TO BE FOCUSED

We are living in 21st century where everything is fast paced from high speed Wi-Fi network to super speed bullet trains, everything is just a fingertip away we have progressed in almost everything and all these technological achievement is supposed to make human life easier, but at this point of time many people especially teenager and people in the gap of 20-30 years of age are facing a lot of problems in being focused and concentrated.

Most of the time students are distracted in various things and one of the major source of distraction is social media platform. I was watching this documentary film named social dilemma, which highlights how different social media platform is stealing people of their valuable time.

Many people stay distracted all day long because of that, they are unable to give priority to the things important for them. I was once watching this video randomly on YouTube talking about how to get focused in life in that video the speaker said " we have being practising distraction for so long that ultimately we have become perfect in doing that."

What I wanted to say is it is very hard to get your life back on track all together just in one day, so how to be focused again? So start small take baby steps try changing a small part of your day for e.g.: if you take up any activity that you are interested in do it consistently, if you decided to read than read every day if you decided to maintain a healthy diet do it consistently and if you are able to be focused in one activity it will motivate you and help you to get more disciplined and achieve other targets as well. I am sure you people are aware about the legendary archer Prince the Arjun and story of his discipline and power to focus.

Once Dronacharya was taking the lesson of all the princes of hastinapur and Dronacharya gave them a activity to shoot the eye of a wooden parrot sitting on a branch of the tree with bow and arrow, one by one the princes of hastinapur came and took the aim but Dronacharya didn't allowed anyone to take the shot unless Arjun when Arjun came and took the aim Dronacharya asked him what can you see Arjun to which he replied " apart from the eye of the bird I can't see nothing" and as to no one's surprise he was successfully able to complete the task.

This story simply highlights the importance of sheer focus and if you are focused you can achieve anything and everything in life.

And if you are not focused start today and change yourself after some time and lot of hard work you will be back on track focused like a laser, like a warrior ready to win the battle field.

# INSTAGRAM AS MY NEW BEST FRIEND

"The great thing about Instagram is how it gives voice to voiceless people". There are times when I do not know where I have to go or what I have to do just at that right moment. I think I need to rely on someone at that time the only thing that comes in my mind is to distract myself and my generally without even thinking just go to Instagram and start scrolling, searching, shopping, smiling, laughing, sharing my talent making reels and getting relaxed sometimes watching. People's work on Instagram makes me feel motivated to take inspiration from their work and it helps me to make my work better and improves me a lot. Before I used to rely on my friends to have, fun to distract myself now all I think is how I should utilize my time on Instagram. Which can help me and help others too. Instagram is an inspiration for me as well as many other people too.

Giving the title of best friend to Instagram is something people rarely do I gave my best friend the title Instagram because I think I can post whatever I want whatever I think it is about me without anyone judging me just like a genuine best friend does and get genuine opinions. Instagram is kind of support that only a friend can give so in other words. Integra is my best friend where I can share my feelings I can work on my future, my creativity, my talent, business and personality so honestly, it is a platform in favor to help me to go ahead just with my genuine work which will help me reach where I want too. Does Instagram have uncountable opportunities for people of every age who wants to display their talent as per my perspective what are your thoughts about Instagram?

## Why the Deadlines Are Important

Deadlines directly impact your time (and everyone else's). Therefore, they force you to organize your tasks in order of priority, so that you're only working on objectives that move. You close to your most meaningful goals. You have to learn how to focus in your key milestones and just say no to the rest. You know why the deadlines are important for students. The reason to-do lists and deadlines. Are so effective is because they make large projects or goals more manageable. This type of Planning can help students finish school projects, follow New Year's resolutions, or achieve Goals, whether short term or long term. Goal setting also helps to build intrinsic motivation. Teaching Children to Meet Deadlines. Teach them how to tell time. Teach them the days of the week and months of the year. Give them their own calendar. Help them keep track of what they need to get done. Remember to be spontaneous.

Reward being on time when appropriate. Why Deadlines Matter. Typically, we have deadlines for one of the following reasons: To ensure that we complete our work. It's easy to delay or to forget a task that has no agreed end point. Deadlines help to avoid. Deadlines help us to collaborate toward achieving a shared goal, and to keep complex, multistage projects on track. To set expectations. Deadlines make clear what we're expected to deliver and when. This means that we can take control of our work, free of confusion.

**Managing a Deadline** Chances are, most of us simply accept the deadline that we are given. But it's important to consider it properly before agreeing to it. People often underestimate how long it takes to complete projects, so the deadline you've been set could be unrealistic. And sometimes deadlines are set unnecessarily early to prevent problems from arising when delivery is late!

**Evaluate What's Required.** First, you need to understand exactly what the task involves. If your deadline is for a complicated task or project, see our articles, *Business Requirements Analysis* and *Work Breakdown Structures*, to identify and map out what work needs to be done. Ideally, the Person who set the deadline will have taken into account the complexity of the work. But our Article, *Estimating Time Accurately*, is packed full of tips and strategies for setting realistic and manageable timelines. **Get the Right Resources.**

Next, make sure that you have what you need to get the job done promptly. Will you have? The people, technical support, equipment, training, or materials ready and available in time? If not, you may have to suggest a longer schedule, or a lowering of the quality or quantity of Work that you'll deliver on time. Plan in data the next step is to create a detailed schedule. A good approach is often to break tasks down. Into small components and to create deadlines for each one. As a result, you might find that you're going to need more time than the overall deadline allows.

Be sure to raise this as an issue as soon as possible, and avoid simply hoping for the Best! The ability to see how you're progressing can be very motivating, and it can help you to immediately identify tasks that haven't been done. Our article, *Gantt Charts*, describes how to use this popular visual scheduling tool. **Limit the Damage of a Missed Deadline** Despite all your hard work and forethought, you might still miss a deadline. If this happens, Keep calm and make every effort to limit the damage. Keep your stakeholders informed of progress throughout your work, highlighting any issues. That delays you, and shows that you are putting your contingency plans into action. Then, if you do fail to deliver on time, more people will understand the situation and some might be prepared to help you.

## VOICE LOVED BY BILLIONS

On 6th February heartbeat of 1.35 billion people skipped a beat when we all got the sad news of demise of nightingale of India Lata Mangeshkar my eyes were full of tears & my heart was full of melody sung by the legend herself.

The eldest daughter of Deenanath Mangeshkar born in Indore her birth name was Hema which later changed to Lata which was based on a character of Deenanath's play.

Lata Mangeshkar faced many challenges in her family as well as her musical journey her father died when Lata was very young she overtook all the responsibility of her family and she flawlessly manage to do so,

her first singing lessons were thought to her by her father at the beginning of her musical journey many music composer rejected her singing her voice is too flat some even criticized her vocabulary of Hindi and Urdu language, she worked on her language and pitch and got her first big break with the song 'Dil Mera Toda, Mujhe Kahin Ka Na Chhora' in the movie majboor by music director Ghulam Haider, after that there was no looking back.

If we talk about her musical career in numbers she sang almost Thirty Thousand songs which is Guinness world record for the most number of song recorded in studio she lend her voice in 2000 films and in 36 languages, she sang most of her duets with Mohammed Rafi, The shining star of the movie worked with all most all the music composer except O.P Nayyar who said Lata's voice is "Thin and Shrill" for his compositions.

Lata's voice striked the strings of love in everybody's heart but what about her love life although she likes to keep her personal life private but she did had an alleged affair with Raj Singh ji son of ruler of Dungarpur Rajasthan this relationship ended because the family of Raj Singh Ji was critical about it, nevertheless she did not forgot to believe in true love and that was clear with the meledy of her songs.

Lata Mangeshkar was not only a singer but also an actor and music composer as well in the seven decades of her melodious journey she went on to receive various awards including Bharat Ratana the highest civilian award, she saw the British India, The Independent India and she saw billion of people falling in love with her.

She was bid adieu on 6th February with the state organized ceremony, the National Flag at the top of Sansad and Rashtrapati Bhavan were lowered to mourn the legend and the state of Maharashtra Declared public holiday on 7th February, A well suited Farewell to the legend.

"Teer na taale talti hogi  
Teera na taale talti hogi  
Sehat bhi machalti hogi  
Chita dekhkar tum na ghabrana aatma ghar badalti hogi"  
Rest in peace

# ध्यान केंद्रित करने के लिए खुद को कैसे प्रशिक्षित करें?

विजय कि प्रप्ति उसी को मिलति है जो  
अपनी बुद्धी पर “संयम” रख सके।।

ध्यान को केंद्रित करना यह एक ऐसा शस्त्र है जिससे हम किसी को भी पराजित कर सकते हैं। हम शरीर से परिश्रम करते हैं, परंतु ध्यान को केंद्रित करके हम स्वयं जीत की ऊंचाई को हासिल कर सकते हैं। ध्यान को केंद्रित न कर पाने के कई कारण हैं। ईर्ष्या, द्वेष, क्रोध, अभिमान यह सभी हम ध्यान को केंद्रित करने से रोकते हैं। हमारे मन का विकास उसी तरह होता जिस तरह हम सोचते हैं या जिस तरह व्यवहार करते हैं।

ईर्ष्या, क्रोध भाव को छोड़ो, मुट्ठी में रख  
ध्यान करें

आज तक जिसने भी इन सब को ने थाम लिया है वह व्यक्ति पराजित हि हुआ है। हमारा दिमाग इतना चंचल है कि हम ध्यान को केंद्रित नहीं कर पाते। पर आप सभी ने यानतो अवश्य ही देखा होगा, कि “जब भी हम अपनी इच्छानुसार या अपने मन के साथ कार्य करते हैं तो ध्यान स्वयं विचालित नहीं होता है, लेकिन जब भी उसके विपरीत कार्य करते हैं तो हमारा ध्यान यहाँ वहाँ की बात अवश्य करने लगता है। इसी लिए जहाँ हमारी इच्छा वहाँ स्वयं मन लग जाता है। आज कई बड़े विद्वानों ने ध्यान के बल एवं सामर्थ्य को माना है। यदि आपदसरो की सफलता को निहारते हैं तो उसके कठिन परिश्रम और संयम को भी निहारें।

यह दुनिया है एक वृत्त, अगर देखोगे तो देखते रह जाओगे, अपना लक्ष्य बनाओ बिंदु के समान, ध्यान को केंद्रित करने में जूट जाओ।

भीड़ हमेशा तुम्हें वहाँ का रास्ता बताएगी जिस पर वह चल चुके हैं, पर अगर तुम्हें कुछ नया करना है तो उस भीड़ से अलग हो जाओ।

जिस तरह से नदियों का पानी बिना रुके बस बहता चला जाता है, ठीक उसी तरह समय किसी का इंतज़ार नहीं करता। हमारे लिए यह जरूरी नहीं कि हमने कितना काम किया है, बल्कि यह जरूरी है कि हमने उस काम को करते समय क्या सीखा। समय ही एक ऐसी आड़ने की तरह हमारा व्यक्तित्व बताती हैं। अगर हम समय को यूँ ही जाया करते रहेंगे तो हम अपने कार्य को समय पर पूरा नहीं कर पाएंगे। आज के समाज में समय को पहली प्रधानता दी गयी है। जिसने समय की क़दर नहीं की, उस व्यक्ति की पूरा समाज क़दर नहीं करता। समय को महत्व देनेवाला सारे व्यक्ति आज अपने उचे मक़ाम पर हैं। जिसने समय को महत्व दिया उसी तरह समय ने भी उस व्यक्ति को महत्व दिया।

उदाहरण के तौर पर, अगर हम समय पर रेलगाड़ी को ना पकड़ पाए तो वह छूट जाती है, जिसमें वह रेलगाड़ी के साथ साथ हमारे धन की भी हानि होती है। यदि हम समय पर पहुँचते तो ना ही हमारा वक़्त जाता और ना ही हमारे

सभी को बताया गया है कि ,  
समय का सबसे कहना है,

## रंग

मेरा रंग तो क्या,  
तुम्हारा मन भी काला है...  
अपने विचारो को बदल के तो देखो,  
मेरे रंग में भी उजाला है!

तुम्हारे माथे पे लगे तो वो टीका है,  
गौर से देखो मेरी मुस्कान पे तुम्हारे टीका, थोड़ा फिका  
है ...

मेरे चेहरे पे झलके तो दाग है,  
तुम मेरे चेहरे का छोडो तुम्हारी नियत बरबाद है!

तुम्हारे रंग को देख,  
मेरा रंग भी छूप जाता है ...  
क्या तुम्हारा रंग, क्या मेरा रंग,  
मेरे रंग के सामने अंधेरा भी शर्माता है!  
मेरे रंग के सामने अंधेरा भी शर्माता है!

कहने को बहुत कुछ है तुम से,  
पर बोल नहीं पाती!

तेरी इन तारों जैसी आंखों के सामने  
और कुछ समझ नहीं आता,  
तेरे इस मासूम चेहरे के सामने,  
कुछ कहा नहीं जाता,  
तेरी इस मुस्कुराहट की वजह  
बन्ना चाहती हूँ, पर क्या करूँ  
कहने को तो बहुत कुछ है तुमसे,  
पर बोल नहीं पाती!

लगता है ले चलूँ तुम्हें।  
समझ नहीं आता कैसे ले जाऊँ,  
हाथ तो थाम ना चाहती हूँ तुम्हारा  
पर डर है की कहीं हाथ छूट न जाए,  
पर डर है कही खो न जाये,  
कहने को तो बहुत कुछ है तुमसे  
पर बोल नहीं पाती!

कभी लफ्जों की जगह  
दिल की आवाज भी सुन लिया कर  
कहीं गलत लग जाए तो थम जाऊंगी,

देखलिया कर कभी इन आँखों मे भी,  
जो ये लफ्ज न कह सके, आँखे हर बार कह जाती।

कहना तो बहुत कुछ है तुमसे,  
पर बोल नहीं पाती!

# मुदतींचे महत्त्व

वेळ हे एक अमूल्य साधन आहे . मनुष्यजातिने या वेळेचा पुरेपरू सदुपयोग केला पाहिजे ,तरच तोत्याच्या वैभवशाली ध्येयाकडे पोहचू शकेल. वेळेचा मान ठेवायला हवा. एखादे काम केले म्हणजे वेळेचा उपयोग केला असे होत नाही , तर ते काम दिलेल्या वेळेत पूर्ण झाले असेल तर तो खरा वेळेचा वापर . अंतिम मुदतीचे महत्त्व मनत ठेवून कोणतेही काम करण्यास आरंभ केला पाहिजे आणि निष्ठेने तेकाम सुरळीत पार पाडले पाहिजे. आपण एकदा का ती अंतिम मुदत ओलांडली कि येणाऱ्या पुढच्या सगळ्याचाच कायमचा बट्याबोळ! समोर उभी असलेली दुसरी आव्हाने , याचा वेगळाच होणारत्रास या सर्वांना सामोरे जावे लागते. जर एखादे काम तुमच्याकडून वेळेत होत नसेल तर तुम्ही योग्य मार्गावर नही आहत हे समजून घ्यावे। शरीराला सवय लावा, काम योग्य वेळेत समाप्त करण्याची, मग तो सकाळचा व्यायाम असो किन्वा अंतीम परीचा पेपर, जे ने काम वेळेत झाले पाहिजे. वेळेचे खरे महत्त्व तर अपघात होता होता वाचलेल्या ला विचारा... लग्बगीने दफ्तरत जणार्याची ट्रेन एका मिनिटाने सुटते त्याला विचारा.... ययपत ची व न घेऊन निघालेल्या धावण्याच्या शर्यतीत एक सेकंदाने अपुर्या राहिलेल्या त्या जवानाला विचारा... एखाद्या दिवशी कामावर पोहोचयला उशिर झाल्यामुळे पदोन्नती पासून दुरावलेल्या कर्मचार्याला विचारा...

आपल्या हातातून निसटलेल्या सगळ्या गोष्टी आपण परत जिद्दीने मिळवू शकतो. मग तो पैसा किंवा अजून काही! परंतु वेळ ही एक अशी असाधारण गोष्ट आहे कि, ती एकदा निघून गेली कि पश्चाताप करून काही उपयोग नाही !

"वेळ आलीये संधी घेऊन  
या संधीच सोनं तुझ्या हाती,  
उठ,आणि लाग कामाला  
यश आता तुझ्यापासून दूर नाही."

आयुष्यात आपण अनेक महागड्या, अवाढव्य पैसे मोजून,खरेदी करून आणलेल्या वस्तूंना जीवा पलीकडे जपतो. यांची कदर करतो.पण आपल्याला मिळालेल्या फुकट, परंतु मौल्यवान वेळेची कदर कधी करणार ? वेळेसाठीही पैसा मोजावा लागत नाही, उलट याच वेळेचा योग्य वापर करून अमाप पैसे कमावता येतील परंतु हे सगळ तेव्हाच होईल जेव्हा तुम्ही वेळेचे महत्त्व जाणाल. समोर आलेली प्रत्येक आव्हाने पार पाडत चालाल, यशाची एक एक पायरी पुढे सरकत चालाल.

" महत्त्व या अंतिम मुदतीचे जाण मनु या,  
कार्य सिद्धीस नेण्यास वेळे प्रमाणे वाग मनुजा."

## यूट्यूब ही नवीन कारकीर्दीची संधी आहे

एकविसाव्या शतकात जगताना तंत्रज्ञान व सामाजिक माध्यमे हे अगदी प्रत्येक व्यक्तीच्या आयुष्याचा अविभाज्य भाग बनले आहेत. इतर सर्वच गोष्टींप्रमाणेच सामाजिक माध्यमांच्याही चांगल्या व वाईट अश्या दोन्ही बाजू आहेत. प्रत्येकासाठी सामाजिक माध्यम चांगलं की वाईट हे ज्याच्या त्याच्या वापरावर अवलंबून आहे.

परंतु, सर्व वाईट बाजू एका बाजूला ठेवल्या तर आजच्या पिढीने सामाजिक माध्यमाला विशेषतः युट्यूब(YouTube)ला उत्पन्नाचे साधन बनवले आहे. आजच्या काळात बेरोजगारी वाढत आहे. विशेषतः कोरोना महामारी आल्यानंतर नोकरी मिळणे हे अतिशय कठीण झाले असताना हताश न होता तरुणाईने किंबहुना सर्वच वयोगटातील लोकांनी स्वीकारलेला हा मार्ग खरच कौतुकास्पद आहे.

युट्यूब हे मुळात सर्वसामान्यांना ध्वनिचित्रफीत (video) प्रदर्शित करता यावं ह्याकरता Google ह्या कंपनीने बनवलेलं एक social media app आहे. युट्यूब वर कोणीही अगदी सहजरित्या Channel सुरू करून व्हिडिओज प्रदर्शित करू शकतो. YouTube हे Google द्वारे बनवलं असल्याने Google ads Policy नुसार एखाद्या Channel ने त्यांच्या अटी पूर्ण केल्यानंतर त्या Channel वर जाहिराती (Ads) दिसू लागतात व त्या Ads करता Google ला मिळालेल्या पैश्यांपैकी काही रक्कम YouTube पर्यायाने Google त्या Channel ला देऊ करते. त्यामुळे YouTube द्वारे आपली कला जोपासता-जोपासता पैसेही कमावता येऊ शकतात ह्याच कारणामुळे आजची पिढी YouTube कडे उत्पन्नाचं साधन म्हणून पाहते.

आजचा विचार करता YouTube वर तीन कोटी सत्तर लाखांहून अधिक Channels आहेत. त्यापैकी सुमारे ३५% Channels हे Monetized आहेत. ह्यावरून अंदाज लावता येऊ शकतो की, YouTube मुळे किती लोकांना रोजगार मिळाला आहे. भारताचा विचार करता भारतात आज अनेक तरुण हे YouTube च्या माध्यमातून कमवत आहेत.

Subscribers च्या दृष्टीने पाहता भारतातील काही सर्वात प्रसिद्ध YouTube Channels ची नावे Carryminati, BB ki vines, Amit Bhadana, Aashish Chanchalani ki vines ही आहेत. हे YouTubers आजच्या नवीन पिढीला YouTube कडे उत्पन्नाचे साधन म्हणून पाहण्यासाठी प्रोत्साहित करत आहेत.

एकंदरीत पाहता YouTube हे उत्पन्नाचे साधन म्हणून तरुणाईने मनापासून स्वीकारले आहे त्याचे कारण एकच की, स्वतःची आवड, कला, छंद जोपासत असतानाच कमावण्याची संधी उपलब्ध करून देणारे साधन(platform) म्हणजे YouTube हे होय.
