**“HAPPINESS WEEK”#Happiness**

**20<sup>th</sup> March 2022 to 26<sup>th</sup> March 2022**

International Day of happiness is observed every year around the world on March 20. International Happiness Day holds significance because Happiness is the most important thing in an individual's life. When we choose to take action to help others, they benefit, we benefit and we set an example of kindness that can ripple out into the world too. On the International Day of Happiness we are reminded that our actions matter and that each of us can help build a more compassionate world, wherever we are.
